

# HOVEYTHES ROOSEVELT TO PARLEY IN CAPITAL AS BUSH, FELLEREDT NOTES ARE REVEALED

## MILK PRODUCERS CLAIM PRICE PACT BROKEN BY DAIRIES

Confederation Says Atlanta Distributors Have Refused To Pay Graduated Increases for November and December.

## PRODUCERS MAY DO OWN PASTEURIZING

Plan Being Considered; Dairies Here Say Condition Caused by Reductions Given Wholesalers.

Atlanta milk distributors have refused to carry out their agreement to pay producers a graduated increase of two cents a gallon during November and December.

The charge was made as the result of inquiries made by The Constitution in an effort to ascertain the cause for frequent changes in the price of milk charged to domestic consumers.

H. H. Hardin, of Forsyth, vice president of the confederation, said over long distance telephone Sunday night that although the terms of settlement of the September milk strike called for a two-cent increase to producers each month during October, November and December of this year, the Atlanta distributors thus far have only fulfilled their agreement for the month of October.

On November 1, Hardin said, the price was increased from 12 to 14 cents a gallon.

On November 1, Hardin said, the price was increased from 12 to 14 cents a gallon.

Asked why the distributors had not carried out their agreement to pay producers 16 cents a gallon beginning November 1, this spokesman said that "the distributors have reduced their prices to the wholesalers to such a point that we are unable to pay more to the producer."

Hardin frankly admitted Sunday that his organization, which ships between 18,000 and 20,000 gallons of raw milk into Atlanta daily by truck, had no definite plan to cope with the refusal of the distributors to abide by their agreement.

He said, however, that "we will have to do something," and it was recalled that prior to the September settlement of the milk strike against Atlanta the confederation was considering a plan whereby it would pasteurize and distribute its own products in Atlanta.

While Hardin did not refer to the

## Mistaken for "Cop," Negro Shot by Friend

Mistaking a porter's black-and-white cap for that of a policeman, Will Favors, a negro living on Lovejoy street, early Sunday morning took a pot shot at the wearer, with the result that he shot and wounded his friend and customer, Lucius Smith, negro, who had gone to Favors' house to buy a little whiskey.

Smith, a porter, told police he had knocked on the door of Favors' house and that Favors had peered through the curtain at him. The next thing Smith knew Favors had banged away with a shotgun, the load entering his right arm. He said Favors lingered long enough to express his regret over what he apparently considered as a grave social error, then fled. Smith probably will lose the arm.

## COUPLE RELEASED ON FOWLER KILLING; SEARCH CONTINUES

Authorities Uncertain Whether Slayers Were White or Negro; Continue Hunt in County.

Apparently baffled as to the racial identity of the two bandits who Saturday night shot and killed John Fowler, 70-year-old retired locomotive engineer and operator of a small grocery store and filling station, DeKalb county officer Sunday released a white man and woman they had held for questioning for several hours, and turned their attention to the investigation of questionable negroes in the Avondale community, near which Fowler's store was located.

Thomas Stockwell, a mechanic employed at a nearby convict camp, who also was shot, but who escaped death by fleeing with a bullet wound in his forehead, told officers that the two gunmen who entered the store were negroes. Both, however, wore black masks which completely covered their faces, and subsequently fled.

From their manner of speech they may have been white men. Bloodhounds led sheriff's officers and DeKalb police men Saturday night close on the trail of the slayers, and shortly after midnight a mask was found. Early Sunday morning a second mask was found in a wooded section near where the shooting occurred, and both masks were identical. They had been made from large squares of cloth, and the two small holes cut into them to provide visibility.

Sheriff Jake Hall and Chief of Police Alex W. Lilly refused to divulge the names of the man and woman arrested early Sunday morning. Meanwhile searching parties still continued their efforts to locate the slayers, and Sunday afternoon had questioned several negroes living in the vicinity.

The only explanation of the arrest of the man and woman was that the names of the man and woman arrested early Sunday morning.

Funeral services under the direction of A. S. Turner & Sons, will be held at 2:30 o'clock this afternoon from the Turner chapel, the Rev. B. L. Bond, pastor of the Avondale Baptist church officiating. Interment will be in Indian Creek cemetery.

## American Ship Saves Collision Survivors

FLUSHING, England, Nov. 13.—(AP)—The American ship City of Alton today rescued part of the crew which abandoned the Dutch steamer Rozenburg after it collided with the Greek ship Mount Helikon in North Sea waters and brought them here.

## Youth Badly Wounded by Girl Held for Shooting Two Others

of and severely wounded by a 21-year-old girl after he had wounded a man and his small daughter as they slept in their beds in a farmhouse near Lithia Springs late Saturday night. Ed Brawner, 22, was under arrest Sunday at Grady hospital charged with assault with intent to murder. He was wounded by Emma Lou Lowe, 21, daughter of Henry Lowe, who resided at Lithia Springs, when he was shot in the chest by a charge of gunshot as they lay in separate beds but in the direct line of fire. The child was brought to Grady hospital Sunday for treatment and was released. Both father and daughter were struck by more than a dozen shots.

Investigation by Sheriff Baggett Sunday revealed that Brawner and a friend, Tom Gore, also of Lithia Springs, went to Lowe's home and

## ROOSEVELT SILENT ON HOOVER ACTION; LIKELY TO ACCEPT

BY W. R. RAGSDALE.  
ALBANY, N. Y., Nov. 13.—(AP)—While Franklin D. Roosevelt was inaccessible at the executive mansion to-night, his recent telegram to President Hoover and expressions he has given friends since his election gave rise to the belief he would accept the invitation of the president to a conference at the White House next week.

## President-Elect To Seek Economy When He Tackles New York State Budget During Week.

BY W. R. RAGSDALE.  
ALBANY, N. Y., Nov. 13.—(AP)—The secretary of state has informed the British ambassador, on behalf of his government, that he has a note stating that "they believe that the regime of intergovernmental financial obligations as now existing must be reviewed, that they are profoundly impressed with the importance of acting quickly and that they earnestly hope that the United States government will see its way clear to enter into an exchange of views at the earliest possible moment."

The British government further asks for a suspension of the payments due by British government to our government for the period of the discussion suggested or for any other period that may be agreed upon.

Relates to Payment.  
This last suggestion clearly relates to the payment of \$50,000,000, which will fall due on December 15, 1932. I have requested the secretary of state to transmit you a full copy of that note.

The secretary of state has also just been informed that similar requests are to be made by other debtor governments which likewise are obligated to make payments to the United States on December 15 next. One debtor nation defaulted on a payment due December 10 and another debtor nation served notice on our government of its incapacity to make payment due on December 10.

Some of those who have been associated with the president-elect during the campaign regarded the indefinite date fixed for his journey to New York as an indication he did not look upon the receipt of such an invitation as an impossibility.

The president in his message to Congress made mention of this, asserting he hoped "you will find it convenient to stop off long enough for me to advise with you."

No word came from the executive mansion tonight to indicate whether the telegram of Mr. Hoover had been received. That telegram outlined the status of intergovernmental debt problems and other matters which the president said could not be completed before Mr. Roosevelt takes office.

On Friday, the president-elect said he would be inaccessible for the next three days during which he would receive guests and would take a complete rest. He had first planned to go to his Hyde Park home but a cold forced him to remain in Albany.

The cold was much improved today but he is expected to spend tomorrow quietly at the mansion before tackling the state budget.

On a somewhat smaller scale, the president-elect will receive guests on another day's rest, a work that is similar in many respects to one of the major problems that will confront him when he goes into the White House next March.

His party in his Chicago platform.

## New Roosevelt Policy Endows Warm Springs

President-elect Franklin D. Roosevelt, who for years has been one of the outstanding boosters of Warm Springs as a curative center for the treatment of poliomyelitis, has insured his life for \$500,000, and made the Warm Springs Foundation sole beneficiary. It was learned in dispatches from New York Sunday night.

For years Mr. Roosevelt has manifested his faith in the healing qualities of the warm waters at Warm Springs, and last Thursday, it became known, he signed an application with the Columbian National Life Insurance Company, through Alfred C. Newell, general agent in Atlanta, for the half-million-dollar policy.

While Mr. Newell could not be reached Sunday night, confirmation of the policy was obtained through the Boston, Mass., offices of the Columbian National Life Insurance Company, which was written by Mr. Newell as general agent for Georgia. The endowment is for the development of Warm Springs as a health resort.

## Text of Hoover's Invitation To President-Elect Roosevelt For Washington Conference

ON BOARD PRESIDENTIAL SPECIAL EN ROUTE TO WASHINGTON, Nov. 13.—(AP)—The text of the telegram sent today by President Hoover to Franklin D. Roosevelt, inviting the president-elect to a pre-inauguration conference, follows:

Governor Franklin D. Roosevelt, Albany, N. Y.  
The secretary of state has informed me that the British ambassador, on behalf of his government, has handed him a note stating that "they believe that the regime of intergovernmental financial obligations as now existing must be reviewed, that they are profoundly impressed with the importance of acting quickly and that they earnestly hope that the United States government will see its way clear to enter into an exchange of views at the earliest possible moment."

The British government further asks for a suspension of the payments due by British government to our government for the period of the discussion suggested or for any other period that may be agreed upon.

## NEW MORATORIUM URGED BY NATIONS AS REMEDIAL NEED

Move of Two Biggest Debtor Nations Regarded as Part of Concerted Efforts To Obtain Overhauling of Terms.

## NEW DISCUSSION OF ISSUE ASKED

U. S. Also Petitioned To Suspend Payments Due Next Month "In View of Conditions."

WASHINGTON, Nov. 13.—(AP)—America's two biggest war debtors, Great Britain and France, have asked the United States to relieve them of their payments due next month and enter into a discussion of the whole debt question.

No sooner was this disclosed today at the state department than President Hoover—speeding back from the west—wired President-elect Roosevelt to confer with him at the White House on this and other governmental matters.

Publication of the notes confirmed reports that the French and British governments were seeking to reopen the question for discussion with a view to revision and in the meantime requesting an extension of the Hoover moratorium of June, 1931, to cover the December 15 payments.

Such questions can be passed upon finally only by congress.

Only Friday, Senator Reed, of Pennsylvania, administration stalwart and a leading member of the foreign relations committee, predicted that the debt question will be thrown into congress during the December session.

The French and British move is regarded as only a part of a concerted effort by America's war debtors to obtain a complete overhauling of the terms of their obligations.

Greece Fails in Payment.  
Greece last week failed to meet a payment due the United States and Hungary served notice she cannot meet hers in December.

Payments on principle can be postponed with 90 days notice, under the 1929 debt funding agreement, but interest is supposed to be deposited.

From three other countries—Ecuador, Latvia and Poland—the American government previously has received word they cannot make the December session.

## Funeral Rites Held For Dana Blackmar

COLUMBUS, Ga., Nov. 13.—(AP)—Dana Blackmar, 66, vice president of the Georgia Home Insurance Company and a business leader here for many years, died Saturday night after a heart attack.

Mr. Blackmar was the son of the late Alfred Owen Blackmar and Mary Blood Blackmar. He was married in April, 1890, to Miss Nettie Lou Wellborn Barden, who died several months ago.

Two children survive, Dana Blackmar Jr., of Columbus, and Mrs. Archie Drake, of Macon.

Funeral services were conducted Sunday by the Rev. F. S. Porter, pastor of the First Baptist church. Alfred Owen Blackmar died in 1930 two months before his 100th birthday. Mrs. Mary Blood Blackmar died last September at the age of 101 years.

Blackmar's father and mother, at the time of their deaths were one of the oldest married couples in the nation. The elder Blackmar died in 1930, two months before his 100th birthday, while his wife died last September at the age of 101.

## Debts Balance Sheet Announced by Britain

LONDON, Nov. 12.—(AP)—A concise Anglo-American war debts balance sheet as given out by official quarters tonight is as follows: Payment due the United States December 12, \$95,500,000.

(Twenty million pounds at par—28,000,000 pounds at the present rate of exchange, \$30,000,000 represents payment on capital and \$65,500,000 represents interest.)

Total British debt funded, \$1,600,000,000, of which \$320,000,000 has been paid on the principal of the debt and \$1,280,000,000 have been paid as interest.

The total amount paid by Great Britain to the United States thus amounts to \$1,351,700,000. These are official British figures.

## ECONOMISTS BACK PLANS TO EXTEND HOLIDAY ON DEBTS

Group Headed by Alfred Sloan Recommends Reconsideration of Debt-Funding Agreements.

NEW YORK, Nov. 13.—(AP)—An extension of the moratorium of international debt payments and "reconsideration and readjustment of the inter-governmental debt-funding agreements" are urged in a report made public today by the committee for the consideration of inter-governmental debts.

The committee is headed by Alfred P. Sloan Jr., president of the General Motors Corporation.

The report was drawn up by a group of outstanding economists. It was endorsed, the announcement said, by 51 business, farm and labor leaders, including Alfred E. Smith, former New York governor; Nicholas Murray Butler, president of Columbia University; George W. Wickesham, former attorney-general, and James M. Cox, former governor of Ohio.

A reasonable readjustment of inter-governmental debts, the report said, "promises far greater material benefit to the American people than the direct income which would be realized if payment could be made in full."

Pointing out that an increase of 1 per cent of taxation the nation's annual income would amount to more than twice the current annual debt payments, the economists maintain that a readjustment of these debts in the light of present world conditions suited both to the capacity of our debtors to pay and to our ability to receive—especially if it involved favorable concessions to American trade—would go far toward the stimulation of worldwide and American economic recovery.

Employment and the earnings of American labor would be increased, the report continues. "The profits of agriculture and industry would expand."

"Security of private American investments in European countries, and of foreign bonds now held by American investors, would be strengthened."

Furthermore, through this improvement in business, tax revenues would automatically increase, while the burden of taxation upon the people would be reduced."

The report concludes as follows: "A realization of the consequences to American well-being of excessive debt."

## Mobile 'Honor Killing' Goes to Jury Today

MOBILE, Ala., Nov. 13.—(AP)—A jury tomorrow will hear arguments of attorneys before taking the case of Raymond Dyson, 27-year-old Fairhope contractor, who is charged with the honor killing of H. M. Butler Jr., 27, Mobile service man.

Both Dyson and his wife have told the jury of intimacies between Mrs. Dyson and Butler here and at New Orleans and Dyson described his doubts about the paternity of their young son.

Mrs. Dyson wept on the stand Friday as she testified about her relations with the young Mobile man and watched through tears yesterday as her husband retold her confession of guilt and related his emotions prior to the slaying.

Senator Reed, of Pennsylvania, a leading administration member of the foreign relations committee, said he felt "very strongly" on the debt question and viewed the proposals of Britain and France "as an effort to saddle the United States with the burden of a debt properly belong to the European governments."

Senator Borah, republican, Idaho, chairman of the committee, said he did not care to comment until he had studied the French and British notes. Senator Swanson, who is looked forward with keen interest to the conferences proposed by President Hoover.

## PRESIDENT BARES CONFERENCE PLAN 'FOR PUBLIC WEAL'

European Powers' Moves To Reopen Debt Discussion Prompts Chief Executive to Call on President-Elect.

## TIME IMPORTANCE CITED IN MESSAGE

Hoover Says He Is Loath To Make Any Recommendation to Congress Before Conference.

BY JOHN CHESTER.  
ON BOARD PRESIDENTIAL SPECIAL EN ROUTE TO WASHINGTON, Nov. 13.—(AP)—While his train rolled swiftly eastward across the Arizona desert land, President Hoover today made public a telegram to Franklin D. Roosevelt asking the president-elect to confer with him at the White House on pressing international debt questions.

In line with his earlier pledges of cooperation, the chief executive pointed out that not only debt matters but other questions affecting world economic stability were before the change of administration next March.

"I am loath," he said, "to proceed with recommendations to the congress until I have an opportunity to confer with you personally at some convenient time in the near future."

Mr. Hoover's telegram was dispatched to the New York governor at Albany yesterday, and though the conference was suggested for next week, the president hopes to see Mr. Roosevelt within the next five or six days.

High administration sources reported late today the president had not received a reply from the president-elect, but intimation was given that moratorium matters might be discussed.

The chief executive quoted to his erstwhile democratic opponent a note from the British government stating the regime of intergovernmental financial obligations "as now existing" must be reviewed as a condition of a suspension of the war debt payments due December 15, approximately \$95,500,000.

Secretary Stimson has informed him, the president added, that similar requests have been received from other nations for debt payments due December 15.

"Thus our government," the president said, "is now confronted with a

## The Weather FAIR AND WARMER.

Georgia: Fair and warmer Monday and Tuesday except probably showers in north portion by Tuesday night.

North Carolina: Fair and warmer Monday; Tuesday cloudy and warmer probably occasional rain in west portion in afternoon.

South Carolina: Fair and warmer Monday; Tuesday cloudy and warmer showers in northwest portion by Tuesday night.

Florida: Fair and warmer Monday and Tuesday; Tuesday cloudy and warmer in east and south portions.

Alabama: Fair and warmer Monday; Tuesday cloudy and warmer in east and south portions.

Louisiana, Mississippi: Fair, warmer Monday; Tuesday partly cloudy, warmer in east and south portions.

Arkansas: Partly cloudy, warmer Monday; Tuesday cloudy and warmer in east and south portions.

Oklahoma: Partly cloudy, warmer in south and west portions; Monday; Tuesday unsettled, possibly rain or snow, colder.

East Texas: Partly cloudy, warmer in south and west portions; Monday; Tuesday cloudy, colder in northwest portion.

West Texas: Partly cloudy, warmer in south and west portions; Monday; Tuesday partly cloudy in south, unsettled and colder in north portion, with possibly rain or snow in the Panhandle.

## METHODIST COLLEGES SHOW LACK OF FUNDS

Conference Board To Report  
Urgent Need for \$2,875,000 in Five Years.

MACON, Ga., Nov. 13.—(P)—Georgia Methodist educational institutions must be unified and their work must be correlated to overcome dangers of disintegration and difficulties of adequate maintenance, the conference board of Christian education will report to the South Georgia conference at Albany this week.

This recommendation will be based on an exhaustive survey of Methodist colleges in the state, Dr. Ed F. Cook, chairman of the board of Christian education, said here today. Results of the survey will be embodied in a brief report to the conference proper and the entire findings will be submitted to the board of Christian education at its meeting before the conference opens.

Georgia has eight Methodist colleges, the largest number in any state except Texas. The survey shows that there is overlapping of work, lack of unity and needless duplication of efforts, facilities and expense in the Methodist educational system.

"New buildings are an immediate necessity," continues the survey. "At all institutions except Wesleyan and the Emory system. This will necessitate an outlay of \$750,000. The demand made by debts calls urgently for

## White Pallbearers At 'Mammy's' Funeral

MACON, Ga., Nov. 13.—(P)—"Mammy" Sophie Lewis, a negro, was buried here today and the white folks paused to do her honor. Mammy Sophie was 85 and for 40 years she had "minded de chilluns" and generally made herself useful around the home of Sam Pearson.

The funeral service, read by the Rev. Mortimer Glover, rector of the old and fashionable Christ Episcopal church, was held in the colonial home of the Asher Ayres, forebears of the Pearsons. After the ritual was read, six white men, leaders in Macon's business and professional life, picked up Mammy Sophie's casket and took it to the cemetery.

**E. J. HENRY PASSES**

**AT HOME OF DAUGHTER**

MACON, Ga., Nov. 13.—(P)—E. J. Henry, 80, Hawkinsville business man and member of many fraternal organizations, died at the home of an adopted daughter here this morning. Mr. Henry was born in Houston county, but spent virtually all his life in Hawkinsville. He was for many years president of the Hawkinsville Bank & Trust Company. He was a Mason and a member of Rhodes commandery, Knights Templar, the Ales Temple of the Shrine, Savannah; Knights of Pythias, Woodmen of the World and Elks. For many years he was a vestryman in St. Luke's Episcopal church in Hawkinsville.

His body was taken to Hawkinsville this afternoon and the funeral will be held there at 3 o'clock Monday afternoon.

The raising of not less than \$1,275,000. To standardize the institutions an endowment of \$850,000 will have to be raised, the survey reveals.

"It is clearly evident," the survey continues, "that Georgia Methodists must raise within the next five years \$2,875,000, or prosecute an educational program far below standard."

## IMPRESSIVE FUNERAL FOR DR. FORRESTER

SPARTA, Ga., Nov. 13.—Impressive funeral services were conducted in the Baptist church here this afternoon for Dr. Eldred John Forrester, 79, assembling the largest crowd, many of them high in state and church circles, ever seen here on a similar occasion.

The service opened with Scripture read by Rev. J. P. McGraw, pastor of the church. Rev. H. D. Warnock of Forsyth, president of the Georgia Baptist Association, then paid tribute to his departed friend and colleague. The congregation then sang "Rock of Ages." Rev. Ellis Sammons, of Macon, offered prayer.

Dr. Louie D. Newton, of Atlanta, a former student under Dr. Forrester at Mercer, made the principal talk, a beautiful and touching tribute to his honored friend. A solo, "Christians, Goodnight," by Miss Florine Dannelly, completed the service at the church.

The party then journeyed to the Sparta cemetery, where the burial rites were conducted by Rev. J. P. McGraw.

**MRS. B. C. MOORE DIES**

**AT MILLEDGEVILLE**

MILLEDGEVILLE, Ga., Nov. 13.—(P)—Mrs. Bessie Collins Moore, 49, who came here from Oriental, N. C., in September to be with her daughter, Miss Hazel Moore, a member of the faculty of Georgia State College for Women, died Saturday night.

Other survivors, beside her daughter, her husband, John R. Moore, brother, J. S. Collins, and sister, Mrs. Homer Centrell, both of Montgomery, Alabama.

The body was taken to Opelika, Ala., where the funeral was held Sunday.

## Camp Fire Girls View Kress Art Exhibit

Camp Fire Girls, who visited the High Museum of Art recently to view the collection of 52 old Italian paintings from the famous Samuel Henry Kress collection. Director L. P. Skidmore is pointing out the influence of religious subjects in Italian art, demonstrating with Bassano's famous "Adoration of the Shepherds," a master canvas of the Venetian school. Several hundred school children visited the museum for conducted tours. The Kress exhibition will continue for several days and the public is invited to inspect the paintings. Staff photo by Bill Mason.

## Georgia News Told in Brief

**Pastor Installed.**  
THOMASVILLE, Ga., Nov. 13.—Rev. Ansley C. Moore was installed this morning as pastor of the Thomasville Presbyterian church, in accordance with the forms prescribed by the Southern Presbyterian church. Rev. McDowell Richards, D. D., president of Columbia Seminary in Decatur, preached the installation sermon at the morning service. At the evening service Rev. J. F. Ward, of Bainbridge, and Rev. S. W. Denny, of Cairo, delivered the charges, respectively, to the Thomasville pastor and to the congregation.

**Two Hurt in Crash.**  
THOMASVILLE, Ga., Nov. 13.—Two men from Monticello, Fla., June Turnbull, aged 56, and Tharin Barrow, a few years younger, were seriously injured as the result of an automobile accident on the Thomasville-Monticello highway late Saturday evening. Turnbull has a broken hip and Barrow suffered the fracture of several ribs. Both also sustained bruises and cuts of a less serious nature.

**Kiwanis Officers.**  
GAINESVILLE, Ga., Nov. 13.—Dr. John Burns was named president of the Kiwanis Club for the coming year and Robert A. Brice, treasurer at a meeting held last week at the Dixie Hunt hotel. Directors elected included Dr. Jesse Meeks, Dr. John W. Jacobs, Frank W. DeLong, Fred D. Estes, Jeff Hulse, W. P. Martin and Dr. Roland Q. Leavell.

**Church Officers.**  
DAWSON, Ga., Nov. 13.—The following officers have been named for the Dawson Baptist church for the church year: Deacons, W. H. Martin, chairman; Ed Stevens, Eli S. Lewis, B. M. Roberts, E. J. Pace, S. P. Kenyon, B. C. Crouch, B. C. Roberts, J. Homer Collier, J. A. Hersley, Sr., E. W. Hollingsworth, F. Lawson Cook, George Maddox, J. G. Dean, A. J. Paschal, J. D. Chambliss, clerk; Eli S. Lewis, treasurer; B. M. Roberts, Sunday School superintendent; E. J. Pace, secretary-treasurer; Miss Louise Bolton, director of B. Y. P. F. work; Miss Minnie Clark, president B. Y. P. U.; Miss Lillian Thomas.

**STUDENT DISAPPEARS FROM ROME SCHOOL**

ROME, Ga., Nov. 13.—Robert Morrison, 19, student at a boarding school here, has been missing since the night of Monday, November 7, and his father, Robert M. Morrison of Moultrie, Ga., has asked police here and in other cities to aid in a search for his son.

The younger Morrison is described as 5 feet 8 inches in height, weighing 125 pounds. He has light hair and wears a black jacket, brown trousers and a hat.

Morrison's roommate said the boy had no money. After all efforts to trace the youth have failed his father fears that he met with an accident or has been the victim of foul play. Anyone with knowledge of the whereabouts is asked to get in touch with Deputy Sheriff C. I. Harris, here. A reward will be given for information leading to the finding of the boy.

## State Deaths And Funerals

**JOHN L. WELCH.**  
THOMASVILLE, Ga., Nov. 13.—Funeral services were held here Sunday afternoon for John L. Welch, 50, who died Friday in St. Petersburg, Fla. Rev. J. G. Garrison of Okefenokee, Ga., officiated.

Mr. Welch resided in this county for more than 30 years before making his home in St. Petersburg. He is survived by his wife and the following sons and daughters: Mrs. Marie Greely and Mrs. McInish, of St. Petersburg; Mrs. Alice Edgington; John Welch, of Miami; Edward Welch, of St. Petersburg; T. W. Welch, of the United States navy; Grady Welch, of Pelham, Ga.

**MRS. FRANK COMI.**  
DAWSON, Ga., Nov. 13.—Funeral services for Mrs. Frank Comi, 42, of Chicago, were held here Sunday afternoon at 3 o'clock at the home of her brother, J. H. Smith. Rev. E. H. Seckinger, of Plains, pastor of the Methodist church, officiated. The services and interment will be in Chicago.

Mrs. Comi was the daughter of the late P. T. Smith, of this county. She was born in Dawson and resided here until about 9 years ago, when she moved to Tampa. She has been a resident of Chicago for the past two years and was on a visit to her daughter, Mrs. Dave Bailey, in Tampa when she died Saturday.

Surviving are her husband; a daughter, Mrs. Dave Bailey, of Tampa; a son, Benjamin H. Holland, of Chicago; a sister, Mrs. E. L. Andrews, of Louisville, Ga.; and six brothers, J. P. C. E. and J. H. Smith, of Dawson; E. G. Smith, of Boston; D. H. Smith, of Atlanta; and E. T. Smith, of Miami.

## GEORGE P. CHARTERS DIES AT GAINESVILLE

GAINESVILLE, Ga., Nov. 13.—George Price Charters, 44, prominent businessman of Gainesville, died in a local hospital on Sunday morning. Funeral services will be conducted from his residence on Monday afternoon at 3 o'clock with the Rev. George M. Acree, pastor of the First Methodist church, and the Rev. Roland Q. Leavell, pastor of the First Baptist church, in charge. Interment will be in the family lot at Alta Vista cemetery.

Mr. Charters was born in Dahlgren, Ga., June 13, 1888, and was the son of the late Colonel William A. Charters, of Richmond, Va., and Gainesville, well-known attorney and one-time solicitor-general of the northeastern circuit, and Mrs. Belle Price Charters, of Dahlgren, who died one year ago this month. He attended the North Georgia Agricultural College and the University of Virginia and belonged to the Sigma Nu fraternity. He was admitted to the Gainesville bar and practiced law with his father for a time, later entering business for himself.

For two years he served overseas as a lieutenant in the motor transport corps. At the time of his death he was the owner of the Crescent Ice Cream Company, of this city. Surviving are his wife, Mrs. Olive Capps Charters, formerly of Toconoco; one daughter, Olive Price Charters; one son, Mr. Sidney O. Smith, of Gainesville; three sons, Mrs. John C. West of Atlanta; Mrs. B. A. Craig, of Dahlgren; and Mrs. Carrie Wilson, of Savannah, and one uncle, Will P. Price, of Atlanta.

## MACON WATCHMAN IS FOUND SHOT DEAD

MACON, Ga., Nov. 13.—(P)—Alfred E. Collins, 57, night watchman, was found dead in Central City park this morning. He had been shot in the head and a .38-caliber pistol was found at his side.

Detectives J. C. Smith and W. H. Bowden, who investigated, said in their official report they believed the watchman had taken his own life. There will be an inquest Monday morning.

Collins came here from Fitzgerald, Ga., in 1918. He is survived by his wife and five daughters.

## BIG PITTSBURGH BANK TO BE CLOSED TODAY

PITTSBURGH, Nov. 13.—(P)—E. E. Rieck, chairman of the Diamond National bank's board, announced late today the institution would not reopen tomorrow.

Rieck, in a formal statement, said deposits had shrunk approximately \$17,000,000 in the past 18 months and that "unusual withdrawals" had occurred. Present deposits, he said, are \$8,919,000, while the September 30 statement showed \$12,045,917.64 on deposit.

**SEN. J. 'HAM' LEWIS REPORTED IMPROVED**

CHICAGO, Nov. 13.—(P)—Dr. M. L. Harris, physician attending Senator James Hamilton Lewis, Ill. in a hospital here, tonight said the senator was "much improved" and would be able to leave his bed within a day or so. Senator Lewis was described as exhausted physically from overwork.

## MIGHTY COLORADO COURSE CHANGED FOR HOOVER DAM

BY W. B. CLAUSEN.

BOULDER CITY, Nev., Nov. 13.—(P)—Man turned the muddy waters of the mighty Colorado river through a hole in his dam today—a man-made hole burrowed in one year to remove the river from the bed it has been carving deep, year by year, for more ages than man has known it.

The diversion of the river is the first step in the \$165,000,000 project to bypass it definitely, through the construction of the Hoover dam, to work for the good of man.

Turned from its "Grand canyon" through a black hole in the Arizona wall—a bore 50 feet in diameter—by a blast of dynamite at 11:30 this morning, the river plunged underground to skirt the site of the greatest dam ever planned by man, to permit excavation, first, for the dam foundation and, later, its construction.

As the water surged into the tunnel to a five-foot depth great power shovels bit away the debris from the blast and hurled it into the river bed. Other big steam shovels were on the trestle bridge across the river busily engaged in completing an earth-fill dam so all of the flow would be forced into the diversion tunnel.

This work was expected to take 24 hours, with the complete diversion of the river being effected by tomorrow noon.

## CASEY IS CONVICTED IN LUMBERMAN'S DEATH

KINGSTON, N. C., Nov. 13.—(P)—Herman Casey, 46-year-old Lenoir county farmer, was convicted today of second degree murder in his second trial for the slaying of James C. Causey, wealthy Suffolk, Va., lumberman.

Judge E. H. Cranmer sentenced Casey to not less than 25 years and not more than 30 years in state's prison at hard labor.

Casey was shot to death on a lonely Lenoir county road on July 4, 1930, robbed and his automobile set afire with his body in it.

Casey was convicted of murder at his first trial and sentenced to die. He was granted a new trial on the grounds of after-discovered evidence.

## HUNTER IN ARKANSAS DIES OF BULLET WOUND

HARRISON, Ark., Nov. 13.—(P)—A bullet wound in the head, accidentally inflicted while hunting yesterday, proved fatal today to Leon Bishop, 10, son of Mr. and Mrs. E. D. Bishop. Hunting in woods near his home with his old brother, the lad was wounded when his .22-caliber rifle discharged as he struck it against a log.

## Five Are Killed in Plane Crash

Five persons lost their lives when the plane shown in this picture, piloted by Joseph Hirt, of Chicago, crashed near Kempville, Tenn., the night of November 10. Those killed were Hirt and his wife, Inez; their friend, Mrs. Elizabeth Hunter, 38, widow, and her two children, Robert, 4, and Inez, 2, of Henry, Ill. They were flying to Fort Lauderdale, Fla.

## BRITISH COPPER KING ARRIVES IN NEW YORK

NEW YORK, Nov. 13.—(P)—Sir Auckland Goldies, former British ambassador to the United States, arrived on the Britannic today.

Sir Auckland, who is chairman of the Rhokana Corporation, a British copper firm, said his business was purely private. He declined to discuss foreign debts, politics or business and denied that he had come to attend a conference on copper prices.

It has been reported that such a conference is to be held in New York soon.

# FRENCH, BRITISH ASK, RE TIME

## New Discussion of Debts Problem Proposed in Notes to U. S.

Continued from First Page.

payments on principal due December 15.

Keen interest prevailed in governmental circles here as the state department gave out texts of the British and French notes.

These and voluminous data on the subject last week had been dispatched post haste to President Hoover.

The tenor of both notes was the same. Prompt action was urged as quickly as possible by both Great Britain and France.

They cited concessions they made at Lausanne in agreeing to a reduction of German reparations to about 11 percent of their agreed value and emphasized this as the chief argument for re-examination of war debt settlements.

**British Note from Lindsay.**

The British communication was a note from Sir Ronald Lindsay, the British ambassador, to Secretary Stimson, the French document was a memorandum presented to Mr. Stimson by Ambassador Claudel and bearing no signature.

The Lindsay note recounted the circumstances under which the one-year moratorium was granted June 30, 1931, in the effort to "relieve pressure of the difficulties resulting from the fall in prices and loss of political stability" and said that this purpose has not been accomplished "thoughtful men throughout the world are convinced that if the depression is to be overcome further remedial measures must be sought."

Sir Ronald's note referred to the Lausanne conference at the time of Premier Laval's visit to the United States in October of 1931 which stated that some further action might be necessary covering the period of the business depression.

Reviewing the reparations agreement made at Lausanne, the British note said European nations need further co-operation from the United States in the effort to restore world prosperity.

**British Note Quick Action.**

The note described his majesty's government as believing that "the regime of intergovernmental financial obligations as now existing must be reviewed" and as "profoundly impressed with the importance of acting quickly."

The hope was expressed that "the United States government will see its way to enter into an exchange of views at the earliest possible moment."

Washington was suggested by the British as the scene of the proposed negotiations. With reference to payments due December 15 it definitely requested that the United States government should not be asked to make any agreement for any other period that may be agreed upon.

The French memorandum also based its request on the communique issued by President Hoover and Premier Laval, of France, on the occasion of the latter's visit to Washington in October of last year, and indicated that some action on intergovernmental debts is necessary to make the world economy and monetary conference a success.

After reviewing the friendly spirit in which France participated in the Lausanne agreement to slash reparations, the French memorandum said: "It is in the very same spirit that the French government today proposes to the governments of the United States to join with it in a further study of the debt question."

The memorandum suggested that a speedy conclusion to the debt conference is not probable and asked that "an extension of the suspension of payments may be granted to the French government in order that the study of the present economic problems now under discussion may be continued and completed in the necessary atmosphere of mutual trust."

**Similar Notes Expected.**

Italy, Belgium and other European countries which have not yet approached the United States for an extension of the moratorium are reported to be preparing similar notes to be sent to Secretary Stimson after their representatives see what reception the British and French communications get.

The entire sum due to the United States on war debt payments December 15 is more than \$125,000,000. Of this Great Britain owes \$85,550,000 and the payment due from France is \$19,281,438. Poland, Belgium, Italy, Czechoslovakia, Finland, Lithuania and other nations owe the United States war debts which range from \$3,000,000 down to less than \$100,000.

War debts due to the United States under existing agreements total roughly \$11,000,000,000. The total amount of reparations considered at the Lausanne conference was \$84,000,000,000 and the allied powers agreed to cut this total to \$712,500,000 on condition that there be a reconsideration of intergovernmental debts, including those owed by Europe to the United States.

The Lausanne reparations conference last summer, which the United States refused to attend because this

## Hoover, Laval Foresee War Debt Controversy

WASHINGTON, Nov. 13.—(AP)—Here is what the joint statement of President Hoover and Premier Laval, issued after their conference here on October 25, 1931, had to say about intergovernmental debts. It is referred to in both the British and French war debt notes made public today.

"In so far as intergovernmental obligations are concerned, we recognize that prior to the expiration of the Hoover year of postponement, some agreement regarding them may be necessary covering the period of business depression, as to the terms and conditions of which the two governments make all reservations. The initiative in this matter should be taken as early as possible by the European powers principally concerned with the framework of the agreements existing prior to July 1, 1931."

government has always insisted reparations be a European problem and must be settled by Europe alone, was the forerunner of the present movement of European powers to get a general readjustment of intergovernmental debts, including those that European powers owe to the United States.

On the ninth of last July representatives of the great European powers initiated an agreement to scale their reparations claims down to a level that would be paid by the European powers over the next five years.

But there was a gentlemen's agreement that this radical cut in claims the allied powers held against their former enemies was contingent upon a general readjustment of intergovernmental debts, including those that European powers owe to the United States.

Europe has always held that war debts and reparations are inseparable and that reductions in one must be followed by cuts in the other.

**U. S. Accepted No Reparations.**

This government has never concurred in the view of the United States accepted no reparations from the powers defeated in the great war and took over none of the conquered territories.

In an effort to induce the United States to participate in the Lausanne conference, a separate division of the reparations problem was suggested to discuss world economic and financial problems quite apart from reparations and war debts. But the United States refused to attend.

However, after the reparations agreement was reached the powers represented at Lausanne initiated plans for a world monetary and economic conference in which the United States has agreed to participate on condition that war debts and tariff schedules be not on the agenda.

This conference will be held in London, probably early next year, although the exact date has not been fixed. The chief purposes are to devise plans to improve world prices of commodities, stabilize currencies, improve the price of silver and stimulate trade by improvement of tariff administration.

Premier Ramsay MacDonald recently urged that this conference be held at the earliest possible date. He suggested that it be convened before Christmas, as he said world trade is in such a state that delay is dangerous.

However, the experts at Geneva entrusted with arranging for the conference have adjourned their sessions and do not expect to resume their work until January, so it seems improbable that the conference will be called before February. Its agenda is still unannounced.

**Both Conferences Connected.**

Both of these conferences are inseparably connected, in the European mind with war debt revision. Europe holds that a reduction in reparations and war debts is essential to a restoration of world economic conditions and a radical reduction of world armaments.

A scaling down of the eleven billion dollars in war debts owed the United States in the same ratio that reparations claims were cut at Lausanne would bring it down to about one billion.

President Hoover, congress and the platforms of both major parties are on record against cancellation. The moratorium of one year on war debts payments was granted by the United States in an effort to better world economic conditions.

So war debts become a very pressing problem for the Hoover administration in its final months as well as for the administration of President-elect Roosevelt. Furthermore, the debt problem is a factor in the economic and disarmament conferences unless some solution is found.

**A. C. COKER ARRESTED  
IN CAPTURE OF STILL**

Arrested early Sunday morning in connection with the seizure of a 50-gallon still, A. C. Coker, of Dunwoody, was taken to the county jail Sunday afternoon under \$1,500 bond.

County officers raided a still Saturday night on Spaulding drive, near the Chestnut Ridge school, and seized 50 gallons of whisky, it was said. The still was not in actual operation at the time. Coker is charged with operating a still possessing distilling apparatus and possession of whisky.

This is the same ratio that reparations claims were cut at Lausanne would bring it down to about one billion.

President Hoover, congress and the platforms of both major parties are on record against cancellation. The moratorium of one year on war debts payments was granted by the United States in an effort to better world economic conditions.

So war debts become a very pressing problem for the Hoover administration in its final months as well as for the administration of President-elect Roosevelt. Furthermore, the debt problem is a factor in the economic and disarmament conferences unless some solution is found.

**Relief with Comfort!**

Grove's Laxative Bromo Quinine may be taken with utter safety by young and old. It is non-narcotic and produces no bad after-effects. It does not upset stomach, nauseate, or make the head ring or swim. Thousands testify that their doctors frankly admit they could write no better prescription.

Every drug store in America sells Grove's Laxative Bromo Quinine in convenient, pocket size boxes, cellophane wrapped. Taken promptly a few Grove's Laxative Bromo Quinine tablets will usually expel a cold overnight and thus prevent the infection from spreading within the system. Beware of the dealer who tries to sell you a substitute. (adv.)

# Texts of French and British Debt Notes to United States Asking Suspension of Payments, New Discussion of Issue

WASHINGTON, Nov. 13.—(AP)—The French and British notes to the American government on the war debt question follow in full text:

"British Embassy, Washington, 13, 1932."  
"The Honourable Henry L. Stimson, Secretary of State of the United States, Washington, D. C."

"Sir: It will be remembered that on June 22, 1931, his majesty's government in the United Kingdom subscribed wholeheartedly to the principle of the proposal made by the president of the United States on the preceding day for the postponement during one year of all payments on intergovernmental debts. The object of this proposal was stated at the time, was to relieve the pressure of the difficulties resulting from the fall in prices and lack of confidence in economic life, and to assist in the re-establishment of confidence."

"The hopes which were early raised by the president's initiative have unfortunately not been realized, and the economic troubles which it was designed to alleviate have not come to an end. Indeed, in October of last year, the communique published at Washington on the occasion of Monsieur Laval's visit to the United States recognized the fact that the expiration of the Hoover year some agreement on intergovernmental obligations may be necessary covering the period of the business depression. The initiative in this matter should be taken as early as possible by the European powers principally concerned within the framework of the agreements existing prior to July 1, 1931."

Many thoughtful men throughout the world are convinced that if the depression is to be overcome, further remedial measures must be sought."

**ULTIMATE TERMINATION OF PAYMENTS IS AIM.**

"It was in accordance with the recommendations of the committee set up in June last the European creditor powers met at Lausanne to agree on a lasting settlement of the problem arising out of intergovernmental payments in respect of reparations. The series of agreements reached on July 9 aims at the ultimate termination of all payments. This represents the maximum contribution in the field of intergovernmental finance which the governments concerned are prepared to make towards that early restoration of world prosperity in which the people of the United States, no less than those of any other nation, have so deep an interest, and for the achievement of which the co-operation of the United States is essential."

"On the nature of the remedial measures that may have to be adopted it is not proposed now to say more than that, in the recent past, his majesty's government in the United Kingdom have frequently expressed their view, and that neither in the realm of theory nor in that of practice, they are prepared to enter into an exchange of views at the earliest possible moment."

"The immediate objective of the present note, however, is of a more limited nature. On December 15 the next installment of the British war debt is due to be paid. It is not possible to hope that agreement can be reached by the end of the year of such vast scope. Confronted last summer with a similar difficulty the conference of Lausanne found it necessary in order to allow its work to proceed undisturbed, to reserve, during the period of the conference, the execution of the payments due to participating powers. His majesty's government in the United Kingdom hope that a similar procedure may now be followed, and ask for the extension of the period from them for the period of the

discussions now suggested, or for any other period that may be agreed upon."

"His majesty's government in the United Kingdom believe that the proposed discussions could best begin in Washington and if this suggestion meets with concurrence, they are prepared to provide with the proposed discussions, instructions. On this point, however, as well as on the other points touched upon in the present note, they await an expression of the views of the United States government."

"I have the honor to be, with the highest consideration, sir, your most obedient, humble servant."

(Signed) "R. C. LINDSAY,"  
FIRST FRENCH LEADER.

The state department announced the views of the French government were contained in a memorandum, the translation of which follows:

"Paris, Nov. 10, 1932."  
"Memorandum of the French government."

"The French government, seriously concerned with the effect that the problems arising from the intergovernmental debt situation have on the worldwide depression, deems it of vital importance to approach the government of the United States, seeking to co-operate in examining this question in a spirit of frankness and true friendliness."

"During the months of June and July last, the governments of Europe assembled in Lausanne with a view to averting to the very best of their ability the difficulties arising from the payments which these debts entail."

"Basing its action upon the principles which were expressed in the communique issued on October 25, 1931, by President Hoover and Mr. Laval at the conclusion of their discussions, and which were the basis of the agreement reached by the president of the United States in June, 1931, the French government, certain of being in close accord with the ideas of the American government, voluntarily agreed

to very heavy sacrifices at Lausanne, hoping thereby to appease, at least in part, the economic and financial difficulties existing among nations, and at the same time to make a contribution toward recovery and toward the consolidation of peace."

"Important as were the effects of the Lausanne conference, it must be said that the economic and financial difficulties which stand in the way of a resumption of normal relations between nations are still present, and that a further effort must be made to put an end to them in the interest of all."

"The attitude which France displayed at Lausanne and at Stresa in proof of the active interest which she attaches to the prompt economic recovery of Europe and of the effort which she still contemplates making toward fulfilling this task, France is no less anxious to co-operate in bringing about the success of the worldwide economic and monetary conference."

"It is in this very same spirit that the French government today proposes to the government of the United States to join with it in a further study of the debt question. Inasmuch as such a study will, by virtue of circumstances, require too much time for a speedy conclusion to appear probable, the French government asks that, in accordance with the process followed at Lausanne, an extension of the suspension of payments may be granted to the French government in order that the study of the present serious economic and financial problems may be continued and completed in the necessary atmosphere of mutual trust."

"The French government is convinced that the most helpful effort would be the most helpful effort to the monetary crisis which threatens the world."

"Trusting in the high wisdom and the spirit of justice of the American government, the French government is convinced that its point of view will be understood and that the request contained herein will be favorably received."

**ECONOMISTS BACK  
PLANS TO EXTEND  
HOLIDAY ON DEBTS**

Continued from First Page.

mands upon our debtors makes a reconsideration of existing debt agreements necessary.

"By a sensible readjustment of these agreements which would stimulate a revival of business, the American people would stand to gain far more in dollars and cents through a revival of trade with Europe than they would gain in an attempt to collect the last dollar."

The report's three recommendations are:

"1. That the elected representatives of the American people recognize this vital and delicate problem as a national issue to be settled strictly on its merits in the best interests of the United States;

"2. That a congress authorize, by the recreation of the World War foreign debt commission or otherwise, such consideration and readjustment of the debt-funding agreements as would best advance the interests of American trade and promote American prosperity;

"3. That congress extend the moratorium for a sufficient period to give time for these negotiations."

Sloan said of the report, which will be presented to the 100 members of the committee:

"It is high time that this sort of concerted attempt be made to bring to bear on crucial economic problems the results of authoritative, unprejudiced scientific research and opinion."

The effort in this case takes on added significance from the fact that it has been checked against everyday business experience by the industrialists, businessmen who have endorsed the findings of the economists."

The report is signed by James W. Angell, Columbia professor; Erwin Minor Patterson, University of Pennsylvania professor; Edwin R. A. Seligman, Columbia professor; Frank W. Taussig, Harvard professor; a Stephen S. Tucker, a consulting economist; Jacob Viner, University of Chicago professor, and John Parke Young, Occidental College professor.

**200 BOMBS FOUND  
IN RAID ON HOUSE**

BUENOS AIRES, Nov. 13.—(AP)—Police found 200 bombs and explosive sufficient to make 2,000 more in a raid on a house in the suburb of Villa de Yoto. Four alleged anarchists were arrested.

**Auto Crash Fatal.**

NAUKEON, Ohio, Nov. 13.—(AP)—E. H. Rowley, 60, president of a Detroit (Mich.) artificial limb company, died tonight in Memorial hospital of injuries received when his auto skidded into a ditch near here yesterday. His skull was fractured and he was injured internally.

# Roosevelt May Seek Aid of Owen D. Young

ALBANY, N. Y., Nov. 13.—(UP)—Owen D. Young, one of the nation's leading financiers, and the formulator of the Young Plan on German reparations, may be called upon in an advisory capacity by President-elect Roosevelt if he accepts the invitation of President Hoover to a conference on European war debts.

Young visited the governor several times during the campaign and while the subjects of their discussions were closely guarded it is believed that the debt question was one of them.

Professor Raymond Moley, of Columbia University, economic adviser of Roosevelt was expected to be another of the invitees should the governor heed the Hoover invitation.

The attitude which France displayed at Lausanne and at Stresa in proof of the active interest which she attaches to the prompt economic recovery of Europe and of the effort which she still contemplates making toward fulfilling this task, France is no less anxious to co-operate in bringing about the success of the worldwide economic and monetary conference."

"It is in this very same spirit that the French government today proposes to the government of the United States to join with it in a further study of the debt question. Inasmuch as such a study will, by virtue of circumstances, require too much time for a speedy conclusion to appear probable, the French government asks that, in accordance with the process followed at Lausanne, an extension of the suspension of payments may be granted to the French government in order that the study of the present serious economic and financial problems may be continued and completed in the necessary atmosphere of mutual trust."

"The French government is convinced that the most helpful effort would be the most helpful effort to the monetary crisis which threatens the world."

"Trusting in the high wisdom and the spirit of justice of the American government, the French government is convinced that its point of view will be understood and that the request contained herein will be favorably received."

**GEORGE CALLS ON  
HOOPER TO SAVE**

Says President Now Has  
Ample Authority to Cut  
Government Costs.

Senator Walter F. George, of Georgia, issued a statement here Sunday saying that substantial savings and progress toward reorganizing the federal governmental machinery might be made within 60 days after congress convenes in December if President Hoover will vigorously exercise power given him by a speedy conclusion to the necessary atmosphere of mutual trust.

"The French government is convinced that the most helpful effort would be the most helpful effort to the monetary crisis which threatens the world."

"Trusting in the high wisdom and the spirit of justice of the American government, the French government is convinced that its point of view will be understood and that the request contained herein will be favorably received."

# BRITISH DESCRIBE MOVE AS URGENT

Debt Proposal Termed  
Businesslike in Interest  
of Whole World.

LONDON, Nov. 13.—(P)—The British proposal for suspension of British war debt payments due to the United States on December 15, made public in Washington was described by government officials tonight as a businesslike move in the interests of the whole world.

The British government considered that an announcement that Britain had started negotiations with the United States for final settlement of war debts and that, until these negotiations are concluded, no further payments will be made would have the salutary effect of stabilizing world confidence and promoting recovery of the world.

While taking this world viewpoint, British sources were emphatic in professing that no united front has been formed by European debtor nations for pressing the war debts issue with the United States.

It was admitted that Britain will keep close touch with other debtor nations but that the movement at present is a quiet one. The British government is guided entirely by the American public situation. Without desiring to be a party to the election, it was said in British circles that the government waited until the election was over and then moved its overture at the earliest possible moment. It was assumed in London that the French took the same view.

"Quick Action Needed."

The note was presented without waiting President Hoover's return to the capital. It was said, because with only five weeks before payment was due, action was needed, particularly if congress needed to prepare for the question before meeting in December.

In government quarters there seemed little doubt that the British proposals would be accepted. The view was expressed that such action was desired as soon as possible, at the beginning of the Lausanne reparations conference, so negotiations for final settlement of the whole debt problem could be carried on in an atmosphere of "cool detachment."

It was not expected that a formal debt conference would be convened in Washington. The exchange of the States would negotiate with individual debtor countries. No plans have been made for Neville Chamberlain, chancellor of the exchequer, to visit the United States on such a mission, but he would be available as was Stanley Baldwin, lord president of the council, for the original funding negotiation.

The official view was taken that Britain's note and any negotiations arising therefrom were not expected to affect in any way the forthcoming world economic conference, at which the United States does not desire the debt to be discussed. The London view is that the debt negotiations at Washington and the economic conference in London could proceed concurrently.

**World Conditions Strengthened.**

In making known the British view of the debt situation, the government laid stress on the world standpoint and took the view that first sensations of relief and recovery from the depression are being felt and would be encouraged.

It was pointed out that world trade is less than half of that of 1929 and that national income of many countries has been reduced by half. World unemployment totaled 25,000,000 persons, it was estimated, and in the face of this situation the British move for final disposal of the war debt problem was viewed as an effort to further the well-being of the world as a whole.

**Views of British Press.**

The view of the press today was that the postponement proposed should "commence itself to United States public opinion" and that speedy announcement that Anglo-American negotiations had commenced with the British move would be a "powerful effect in confirming and stabilizing confidence and promoting trade recovery, which seems finally to have begun."

The Daily Mail said editorially: "The thinking people of America will recognize that the British move is an effort to fulfill her undertakings. Her burden was grievously increased by depreciation of her currency, a fall in prices and a shrinkage of trade. It is on account of these weighty reasons that we are asking a reconsideration of the agreement of 1923."

# GEORGE CALLS ON HOOPER TO SAVE

Says President Now Has  
Ample Authority to Cut  
Government Costs.

Senator Walter F. ## MERRILL MURDER CASE TO BE REOPENED TODAY

Indictments To Be Sought  
Against Dana, Miss Dockery  
and 3 Negroes.

NATCHEZ, Miss., Nov. 13.—(UP)—Strange, dark shadows of the past gripped Natchez tonight. The Jane Surget Merrill murder case approached a climax, with a wave of queer passion and thwarted ambitions.

Judge R. L. Cogban will empanel a grand jury in the morning. These jurors will sit in chambers and hear evidence intended to link two elderly eccentrics, residents of a decaying mansion called "Goat Castle," and several negroes, with the slaying. State witnesses have been ordered to be present.

The town was tense. An endless flow of sightseers retraced scenes of the mystery, putting admission at the gates. Countless thousands of them, from every part of the country, have trod the scenes since the night of August 4, when "Jennie" Merrill, the "Belle of the Old South," was shot to death at her home, Glen Burney.

The slain Miss Merrill was a 72-year-old reclusive who presided over a 120-year-old estate. She came to town periodically in a horse-drawn carriage. She wore the cuff sleeve dresses, tight high collars, wasp-waisted cloaks of the '80s. She spoke to few townspeople. A sign on her gate read: "Visitors not welcome." Only Duncan G. Minor, her childhood sweetheart, who still lives on a nearby estate, had been a caller at Glen Burney.

Charged with murder in connection with her slaying are the occupants of "Goat Castle," Richard Dana, son of Charles Dana, the late writer, and also of Charles Dana Gibson, the poet, and Miss Octavia Dockery, daughter of a famous Confederate brigadier, herself once a ruler in Confederate society. These two lived alone in the decaying ruins and massed rubbish of "Goat Castle," sharing each other's eccentricities and blighted ambitions. Dana was once an accomplished pianist. His hand was mutilated, his career was blasted and he went into seclusion. Miss Dockery, who, rumors say, he once courted, came with him as his housekeeper.

Will Seek Indictments. Sheriff C. P. Roberts said tonight he would seek indictments against Dana, Miss Dockery and at least three negroes. He said he had "plenty of evidence." Several negroes have been accused by officers but none of them formally charged in the case. Two negro women are still held in jail. It is the sheriff's theory that Miss Merrill was actually slain by George Pearls, a negro who was later killed evading arrest in Arkansas. Pearls' gun was identified by ballistics experts as the one with which Miss Merrill was killed.

## William Brock, Flyer, Passes in Chicago

CHICAGO, Nov. 13.—(AP)—William S. Brock, 39, trans-Atlantic flyer, who, with Edward F. Schlee, of Detroit, attempted a record round-the-world flight in 1927, died tonight from cancer at Presbyterian hospital, where he had been a patient for four months. With him at the time of his death was his wife, Dolly Brock, and stepfather, Augustus Campeau, of West Liberty, Ohio.

Others survivors are his mother, Mrs. Helen Campeau, a daughter, June 11; a son by a former marriage, William Jr., and a brother, Foster Brock. Funeral arrangements have not been made.

## NEW YORK BOND ISSUE TO AID 5,000 JOBLESS

NEW YORK, Nov. 13.—(AP)—Approximately 5,000 men are to be put to work soon by state and county authorities as the initial step in making use of the \$30,000,000 bond issue for unemployment relief, which was approved at Tuesday's general election.

The state temporary emergency relief administration made this announcement today in authorizing the allocation of \$541,500 to the state conservation department for park improvement and gypsy moth control projects.

Work is to be afforded in field stations, game refuges, special reforestation areas, and nurseries.

## SOUTH CAROLINA FLYER IS KILLED IN CRASH

SAN ANTONIO, Texas, Nov. 13.—(AP)—Lieutenant Walter Andrew Oglesby, 23, of the Eighth Attack Squadron, Fort Crockett, was killed by the crash of his plane into a high tension power line about five miles from Randolph field today.

The flyer apparently was maneuvering low when the wheels of his landing gear hit the wire. The motor of the high-powered attack ship was thrown 40 feet from the remainder of the plane. Electric service in San Antonio was cut off several minutes.

Lieutenant Oglesby is survived by his mother, Mrs. B. J. Oglesby, of Charleston, S. C.

Lieutenant Oglesby was on his way from Kelly field, Texas, where he was graduated last June. His plane was hurled to the ground by impact with the wire, a line of the San Antonio Public Service Company. The ship did not burn.

## EX-SHERIFF IN FLORIDA HELD FOR KIDNAPING

TAMPA, Fla., Nov. 13.—(AP)—A charge of kidnaping was placed against W. H. Worley, prohibition informer and former Polk county deputy sheriff, today in the abduction last Tuesday night of H. H. Callen, 52, Thomomass grower. He was released from the county jail under a \$5,000 surety bond.

Sheriff R. T. Joughin continued his investigation of the kidnaping of Callen and the supposed payment of \$1,000 ransom by Worley for Callen's release in the hope that their arrests might be made.

Callen was taken from his home Tuesday night by two white men and a negro, tied and gagged and carried to a tent hidden in some woods where he was kept under guard until Thursday night.

He told officers his abductors were masked and he did not recognize them, and they forced him to sign several checks and a note to Worley demanding \$2,000 for his release.

## Man Found Starving Beside Dead Wife

BOSTON, Nov. 13.—(AP)—An aged man, weakened by starvation, was found today in his room in a south end lodging house, where his wife had lain dead for four days.

The condition of William Poole, 65, became known when William Tolan, a neighbor, called on the couple. He found Poole helpless from starvation and Mrs. Poole, 50, dead on the floor, partly covered by a cloak her husband had thrown over her shoulders before he collapsed.

Officials at city hospital tonight said Poole probably would recover.

## South Carolina Church In 100th Anniversary

NEWBERRY, S. C., Nov. 13.—(AP)—The Centennial Methodist church of Newberry, one of the oldest in this section, observed its 100th anniversary in exercises today. Bishop U. V. W. Darlington, of the Methodist Episcopal church, South, preached at the morning service. Chief Justice Eugene S. Blease of South Carolina, a Newberry resident, presided at exercises this afternoon at which a memorial tablet to Mrs. Mary Frances Wright, a leader of the church in its infancy, was unveiled. The church was founded in 1832, one year after the present first Baptist church here, as a result of revival services by four young ministers, graduates of Furman University, a Baptist institution.

## WELL-KNOWN DOCTOR DIES HERE IN POVERTY

Formerly a well-known physician and an accomplished musician, Dr. H. Hitchcock, native Englishman, died early Sunday morning at the Fulton county almshouse. He was 75 years of age.

Dr. Hitchcock was educated in English medical schools and came to America many years ago. He moved with his wife to Atlanta and began practice here. He was well known until his retirement and resided on Bass street. Several years ago, after he had retired, Mrs. Hitchcock died, and finally a difficult illness caused the doctor to lose his home where he had resided since coming to Atlanta. He had no close relatives and more than a year ago went to the almshouse to live. Attached at the home described him as cultured and charming and distinguished looking. Though he had mentioned many famous English medical men with whom he had gone to college and later worked, their names could not be recalled Sunday night at the home. He had many friends in Atlanta who visited him regularly, it was said.

Dr. Hitchcock was taken ill Saturday morning, though he had apparently been in good health previously, and died early Sunday. Funeral arrangements will be announced by Harry G. Poole.

## Attorney Says Kahn Paid \$20,000 to Singer

NEW YORK, Nov. 13.—(AP)—Max D. Steuer, attorney, announced Saturday that Otto H. Kahn, art patron and capitalist, had paid \$20,000 to settle the \$300,000 breach of contract suit brought against him by Lydia Lindgren, Swedish soprano.

In announcing the payment, Steuer emphasized it was "not paid or even contemplated to be paid in recognition of any claim."

"We agreed," he said, "to pay her debts up to \$20,000 and no more. This payment was made to buy our peace."

## SECOND BONUS MARCH DISCUSSED BY VETS

NEW YORK, Nov. 13.—(AP)—Plans for a second bonus march on Washington were discussed at a conference of war veterans today. Those present were told that similar conferences were being held in various parts of the country and that one group of marchers was starting from California today.

Samuel J. Stember, one of the principal speakers and secretary of a committee named to organize a New York contingent, said he expected from 500 to 1,000 to leave this city for Washington November 28 or 29.

## CAPT. HOMER SIMPSON WILL BE BURED TODAY

Final tribute to Captain Homer M. Simpson, veteran of the World War, who died Saturday at the United States Veterans' Hospital No. 48, will be paid at 10:30 o'clock this morning at the West End Baptist church, of which he was a member. The Rev. M. A. Cooper will officiate, and interment will be in Crest Lawn cemetery.

Mr. Simpson, who resided at 565 Lee street and who was connected with the railway mail service, was an officer in the 319th Field Artillery during the World War. He was a member of the Pythagoras Lodge No. 41, F. and A. M., and was a 32nd degree Scottish Rite Mason. The Pythagoras lodge will have charge of the graveside services.

Surviving are his wife and two daughters, Dorothy and Marjorie Simpson, and several brothers and sisters. H. M. Patterson & Son are in charge.

## LOUISIANAN IS SHOT BY DIVORCED WIFE

LEESVILLE, La., Nov. 13.—(AP)—Arising from his chair in a local restaurant after eating lunch today, Charles L. Eubank, 45, local bridge contractor, was shot four times and probably fatally wounded by a .32-caliber revolver in the hands of his divorced wife.

Mrs. Eubank was arrested by Deputy Sheriff H. L. Barrington, who heard the shots and the screams of the woman owner of the cafe. Mrs. Eubank is held in jail pending the outcome of the wounded man's condition.

Eubank, shot in the right arm, right side, the stomach and with another bullet lodged next to his spine, is given slight chance to recover by physicians.

## ATLANTAN INJURED IN ARKANSAS CRASH

LITTLE ROCK, Ark., Nov. 13.—(AP)—W. G. Stevens, a traveling salesman, of 284 Pine street, Atlanta, Ga., was injured here today as his automobile collided with an oncoming car driven by Herschel Morgan. Stevens' nose was broken and he suffered severe cuts and bruises.

## GIRL, 16, WINS AWARD ON U. S. GRANGE ESSAY

WASHINGTON, Nov. 13.—(AP)—Miss Ruth Walden, 16 year old member of the Liberty, Kansas, Grange, has been awarded the first prize for the best essay on "Why the Grange Should Foster Street and Highway Safety."

L. J. Taber, master of the National Grange, announced today that she was chosen as the best essayist among 8,000 members of subordinate Granges. She will attend the annual sessions of the National Grange at Winston-Salem, N. C., November 16 and 26, as the guest of the organization.

Other prize winners included Charlotte Baker, Middletown, Va.

## SCHOOLS IN ALABAMA FACE MONEY CRISIS

MONTGOMERY, Ala., Nov. 13.—(AP)—County superintendents of education in Alabama have announced following a conference here that rural schools in 25 counties either have or will close within the next three weeks for lack of financial support.

Schools already have closed in several counties, including Cherokee, Coosa, Crenshaw, Cullman, Lee, Russell and Winston.

## \$10,000 Fee Awarded Mrs. Shouse's Counsel

HUTCHINSON, Kan., Nov. 13.—(AP)—District Judge L. G. Somers awarded a \$10,000 fee to four attorneys today for their services in obtaining a settlement and a divorce for Mrs. Jovett Shouse from the former chairman of the democratic national executive committee.

The lawyers are Conrad Syme, of Washington, and F. Dumont Smith, Eustace Smith and Claude Chalfant, of Hutchinson. They had asked a fee of \$15,000. Shouse's counsel contended \$5,000 was sufficient.

Dudley Doolittle, attorney for Shouse and a close personal friend, testified that his client had agreed tentatively to a \$7,500 fee for his wife's lawyers.

## FRENCH ARMS PLAN TO BE KNOWN TODAY

PARIS, Nov. 13.—(AP)—Final touches to the new French arms plan, which will be revealed in detail tomorrow, were made today by Premier Herriot and members of the French delegation to the disarmament conference.

The premier, who has been ill from arthritis, met the delegates in his office at the foreign ministry. He expects to resume normal activity tomorrow.

The newspaper Le Journal said tonight that Premier Herriot, despite his illness, had drafted the entire French war debt note to Washington himself.

## TWO MAJOR VICTORIES CLAIMED BY PARAGUAY

ASUNCION, Paraguay, Nov. 13.—(AP)—Two major victories were claimed by Paraguay today in the vicinity of Fort Munoz. It was officially stated 500 Bolivian soldiers had been killed and 80 wounded near Fort Savandra.

It was unofficially claimed that the Paraguayan regiment known as the "Marcheters de Death" had annihilated 300 Bolivian troops and captured many others near Cuatrovientos.

## Van Dyke Honored on Birthday

Dr. Henry Van Dyke, famous preacher, teacher and author (left), being congratulated by Dr. Nicholas Murray Butler, president of the American Academy of Arts and Letters, when Dr. Van Dyke was honored on his 80th birthday, November 10, by fellow members of the academy, during the meeting held in New York city. Dr. Butler is president of Columbia University.

## TROOPS LEAVE GENEVA AFTER WEDNESDAY RIOT

GENEVA, Nov. 13.—(AP)—Troop reinforcements brought from Lausanne returned today and Geneva calmed down after three days of excitement following the killing on Wednesday night of 11 persons in an anti-social demonstration.

The armed battalions disappeared from the streets and the typical Geneva street scene reappeared.

The 24-hour strike called yesterday by the trade unions to protest against the killings, passed off quietly although police were forced to disperse a large crowd last night with a fire hose.

## Fire at Dormitory Routs Alfred Co-eds

ALFRED, N. Y., Nov. 13.—(AP)—Fire swept a five story women's dormitory at Alfred University this afternoon, driving many of the 110 girls who lived in the building out to the snow covered campus.

The fire broke out in the top floor at noon, while some of the women students were at church and others in their rooms. Burning fiercely, it spread through the entire building.

Many girls ran out with personal belongings, which were strewn about the campus. The advance of the flames kept them from returning for more. Tonight all were being housed in private homes and sorority houses. University officials took up the problem of finding permanent homes for them.

## HEAD OF EAGLES ORDER LAUDS NEW CONGRESS

READING, Pa., Nov. 13.—(AP)—Expressing confidence that a "new deal" is in store for the American worker, Henry J. Berrold, Akron, Ohio, grand worthy president of the Fraternal Order of Eagles, told fellow members here today the next congress would be the most progressive and liberal-minded of any since the Civil War.

Berrold declared he was assured that the next congress would pass an old-age pension bill, and an employment stabilization act—both measures sponsored by the order.

## Georgia Youth Jailed For Theft of Bread

WESTMONT, N. J., Nov. 13.—(AP)—Two young southerners who were given lodging in the police station here last night had 30 similar nights in Camden county jail ahead of them today.

Shortly after leaving the police station they were arrested on a charge of stealing a loaf of bread. They gave their names as Thad Montgomery, 28, and Albert Miller, 22, both of (West Pipers street) Savannah, Ga.

# Surgical steel GEM Blades never bend, break or balk.

.. And they never crack or crumple. Too strong to go wrong. Double- or single-edged, and both designed to fit GEM'S new, non-scuffing, Micromatic Razor—which dual-aligns 'em so precisely that you can't miss a hair. \$660,000 worth of exclusive shaving features packed in every dollar set.

# GEM BLADES

Chesterfields are Milder —

Chesterfields Taste Better

To make tobaccos mild and mellow for Chesterfield cigarettes, just about four miles of warehouses are filled with mild, ripe Domestic leaf, stored away to age for two years.

The greater part of 90 million dollars is invested in these tobaccos. Is it surprising that Chesterfields are milder? That they taste better?

Everything known to Science is used to make Chesterfields right! They're mild—and yet They Satisfy.

# BREAK of the DAY

There may have been finer bits of strategic coaching than that accomplished by Mr. William Alexander and his aids in repulsing the heavy Crimson team from Alabama and winning a victory that will stand as the major upset of the southern season—but it isn't recorded anywhere.

There was never any questioning of the courage of the Georgia Tech team. But there was some doubt as to the ability of the human frame to take a pounding each Saturday and then come for more. A tired team is worth less than a crippled team.

Coach Alexander went to work early last week with what was practically a second string outfit. He gave Alabama on Saturday a different assignment than one which scouts had told them they would face. And this does not seem to be a very resilient Alabama team so far as thinking is concerned. The Alabama team thinks very slowly if at all.

And so, instead of Roy McArthur's punts and passes they had someone else's. And instead of facing what was familiar they faced new men who weren't working as Tech's other teams had. It was something new. Mr. William Alexander gave his team a mental jump on the Crimson and they never got over it.

Also the soundness of Coach Alexander's methods have been proved so conclusively that there will be none to dispute it.

It was early in the fall that it was reported here that Coach Alexander was not seeking to select a set of 15 men and concentrate on them. Instead he was quoted as saying that his material was such that he would have to develop two teams instead of one and that the development must, of necessity, be comparatively slow.

There is no coach in the Southern conference who can put out two teams as strong as the two Tech teams. No other coach, facing the same problem, has solved it as has Alexander.

There is something to be said for the Georgia Tech athletic board and faculty. They do not demand of Coach Alexander that he win all his games. He knows that he can develop his boys physically and along proper lines and not face dismissal as other coaches might. Hence he did not concentrate on 15 men but on 30 or more. I am not sure he would not have done exactly as he did had there been a demand for consistent victories. He is made that way.

Coach Alexander has always been recognized by his associates in the national football field as one of the really great coaches of the game. And this involves more than the mere teaching of the game.

His work during the past two years, with boys who had comparatively little natural football ability, has been such splendid work that it deserves more than ordinary comment. This is really a fine Tech football team. As pointed out in previous writings, Georgia Tech would now be with but one defeat against her had there been competent officiating. Tech would have had at least a tie with Kentucky and a victory over Tulane. Only the Vanderbilt game would be on the last side of the record.

But all that is really immaterial. The fact is that in producing two teams, the second of which could defeat a team which possessed material far superior so far as natural physical assets are concerned, is probably the finest bit of coaching work the south has ever seen.

Kentucky had a lead on Alabama and couldn't hold it. V. P. I. had one and failed to keep it. But the tenacious Jackets got one and all the storming and all the beating of the Tide could not shake them loose.

And one wonders how Tennessee, Kentucky and V. P. I. feel to learn that a second team at Tech beat Alabama.

No coaching feat the south has seen approaches this accomplishment with so little naturally resourceful material. Gentlemen, I give you Mr. Alexander.

**VANDERBILT'S SCORELESS TIE.**  
Tennessee's legions left Nashville sorely disappointed at the scoreless tie which rubbed out another of those Knoxville teams which were apparently rolling inexorably on to a title.

The Tennessee delegation was highly favored to win. Yet the first half saw the pressure on Tennessee practically all the way with the exception of the last three or four minutes. And the third quarter saw Vanderbilt twice drive to within scoring distance. And the fourth saw Beatty Feathers run out of bounds on a touchdown run.

There was no doubt about the runner being out of bounds. The turf was all scuffed where he had pivoted in a desperate swing to get back inside. And the official had spotted him.

One of the features of the game was the punting of Marion Talley, slow-footed Vanderbilt guard. He was called on to kick when Dixie Roberts went wobbling out of the game. And his first effort was blocked. He chased it back 15 yards to beat a racing Tennessee man to the ball.

His kicking form is atrocious. And yet his kicking was a feature. He was called on in an emergency. He knew his style was slow. In the first place he steps with the left foot and seems to walk a while and then kick. He steps with his left and then takes a step with his right and then finally kicks after three and a half steps.

He got them all off after that first one. And they were good kicks. It was a task to be yanked back out of the line with no kicking experience. He had never kicked before. He knew he was slow. Yet he came through.

Someone has said that if we all did our jobs as well as these boys who play football that this would be a better world and I am inclined to agree.

**THE ROBERTS-FEATHERS DUEL.**  
It will be difficult to keep Dixie Roberts off the All-Southern selections. He stands today moved up ahead of John Cain, the crippled Alabama leader, and Beatty Feathers, the Tennessee Indian fighter.

Injuries have kept John Cain shackled. Feathers was a marked man against Vanderbilt and had a net gain of just 16 yards. Holding Beatty Feathers to 16 yards all afternoon is quite a feat.

Dixie Roberts was a marked man as well as Beatty Feathers. And yet they could not stop Dixie Roberts. A re-check of the figures show Dixie Roberts led the individual figures of the day with 86 yards and a net yardage of 79 yards. That was against Feathers' 16. Roberts was a marked man but they could not flag the Dixie Express. His kicking was also good. He ranks along with Don Zimmerman and Jimmy Hitchcock. He is one of the three great backs in Dixie.

And Good Fortune, Vanderbilt fullback, who was the second best ground gainer of the day, looms as one of the best fullbacks in Dixie. He did not once fail to gain. They are calling him the most underrated back in the south after that showing of Saturday.

**THE CROWD ROARS.**  
Never before has the south seen such a thing as the crowd which tore down fences, scaled buildings and walls and defied police to see the Vanderbilt-Tennessee game.

It needed no ballyhoo. And the moral seems to be that natural rivalries are the best after all. This rivalry was for the state title. And it attracted thousands. When the new conference is formed, as it will be this winter, the makers should take a look at their geographies and see who lives next door to who.

## COLLEGE TEAMS ENTER STRETCH SEEKING TITLES

Eastern, Southern, Big Ten, Mythical Awards in Balance.

By Herbert W. Barker, Associated Press Sports Writer.

NEW YORK, Nov. 13.—(AP)—College football enters the home stretch this week with title races in four conferences virtually over, but with as many others still in doubt.

Utah in the Rocky Mountain, Nebraska in the Big Six, and Oklahoma and Missouri in the Missouri Valley, all look like champions on the face of current returns although all have at least one more conference hurdle to overcome.

There will need to be a little more action and perhaps plenty of firefide discussion before the Eastern, Southern, Big Ten and Pacific Coast conference titles, mythical or otherwise, are awarded.

**UP TO MICHIGAN.**  
Michigan can definitely clinch the Big Ten title by whipping Minnesota this week, but Perdue, with only a tie to blot her record, is ready to slip into the throne should the Wolverines falter.

Brown, Colgate, Pittsburgh and Army all seem to take consideration in the battle for the eastern title notwithstanding Army's early season defeat at Pitt's hands. Brown and Colgate will endeavor to eliminate one another Thanksgiving Day but the positions of Pitt and Army hinge upon what they've already accomplished. Carnegie Tech is the only remaining eastern foe on Pitt's schedule.

Utah Wesleyan and Navy for its remaining intra-conference game.

In the south, Auburn and Louisiana State still are unbeaten and untied and Auburn seems most likely to gain the title should the Plainsmen get by Georgia this week. L. S. U. playing a less taxing conference schedule than Auburn, must defeat Tulane to gain consideration.

In the far west, Southern California seems to be the standard outfit but the Trojans have a fine chance to tie with University of California at Los Angeles although that depends upon whether the latter can get by Stanford, Washington and Washington State.

**SURPRISES.**  
There were plenty of surprises in last week's results in nearly every sector of the football battleground. Most of the decisive action was fought in the southwest, south and east.

A somewhat unexpected 14-0 victory over Texas on Friday presented Texas Christian with a new record. The victory to coast through to the southwest title although the Horned Frogs still must meet Rice and Southern Methodist in the final round.

Colgate leads in scoring with 243 points, with Army second with 234. Only Colgate has an uncrossed goal line.

Colgate and Wayneburg each had the eight successive games while Brown, which meets Colgate Thanksgiving Day, has won seven games. Pittsburgh, Susquehanna and Temple all have escaped defeat but have been tied.

Colgate leads in scoring with 243 points, with Army second with 234. Only Colgate has an uncrossed goal line.

Figures eastern teams follow:

TEAM	W	L	T	Points	Against
Colgate	8	0	0	243	0
Wayneburg	8	0	0	234	0
Brown	7	0	0	81	21
Pittsburgh	6	0	0	101	27
Susquehanna	6	0	0	101	27
Temple	5	0	0	101	27
Columbia	5	0	0	139	32
Army	5	0	0	234	0
Princeton	5	0	0	167	26
Harvard	5	0	0	183	22
Fordham	5	0	0	183	22
Dartmouth	4	0	0	136	31
Syracuse	4	0	0	137	30
Yale	2	2	2	78	41
Navy	2	4	1	67	48

**JONES ALWAYS CROWD PLEASER**  
Day in and day out, John Paul Jones, the Texas cowpuncher who meets Alex Aberg, Russian champion, at the auditorium Tuesday night, gives the crowd a show that is as good as any of the top-notchers, and more so.

This must not be taken to mean that Jones is a top-notch fighter. He is, and there are only a few men, London, Sauer, Steele and Lewis, for example—who rate above him. Paul has been in the game some time. He is a clever fighter, but he is not clean and aggressive at all times. His hook scissor is one of the deadliest holds to be seen today. Above all, the little Texan gives his best at all times, and this, more than any other factor, has made him popular favorite here.

In Aberg, whom he meets in the second round, Jones will be taking on a man of even greater experience than himself, a man who will have a right advantage of some 20 pounds.

Colgate and Brown continued on their undefeated way, the former beating Syracuse, 16-0, while Brown noosed out Columbia, previously unbeaten, 7-6, with an 80-yard fourth quarter march. Yale surprised by holding Princeton to a 7-7 tie and Harvard crashed in on one scoring opportunity to upset Holy Cross, 7-0. The midwest three title went to Rutgers as the Scarlet overthrew Lehigh, 37-6, and Amherst won the little three crown, trouncing Williams, 32-7; West Virginia, Washington and Georgetown, 14-0; Temple maintained its undefeated record with a 13-12 victory over Penn State, and Cornell swamped Dartmouth, 21-6.

Michigan and Purdue whipped Chicago and Iowa, 12-0 and 15-0, respectively, in the Big Ten race while Wisconsin tripped Minnesota, 20-13, and Illinois upset Indiana, 18-6.

Oregon offered little resistance to Southern California and the Trojans won, 33-0, as Washington and Washington State played a scoreless tie; California beat Idaho, 21-6, and Oregon State conquered Montana, 35-6.

Notre Dame uncovered plenty of power in overwhelming Northwestern, 21-0, while Oklahoma and Kansas were winning Big Six victories over Iowa State, 19-12, and Missouri, 7-0, respectively.

Utah, dominant outfit in the Rocky Mountain group, handed Denver its first conference defeat, 27-0.

While Tennessee and Vanderbilt were looking for a record draw, Auburn upset Florida, 21-6, and Louisiana State absorbed a 6-0 beating from the undefeated Centenary Gentlemen of the Southern Intercollegiate Athletic Association. Georgia Tech sprang the chief surprise in the south, the former beating Duke and the latter upsetting Alabama, both by 6-0 counts. Tulane defeated Kentucky, 6-3, in another close battle.

**MINNESOTA DAILY ASKS 'Why Not Pay' Deserving Workers**  
MINNESOTA, Nov. 13.—(AP)—Terminology at the large and noisy "business proposition," the Minnesota Daily, student paper at the University of Minnesota, asks editorially "why not pay the deserving workers?"

Publicity which can be turned to profit is obtained from the gridiron by "only a more handful from each college" and the rest of the men have been "marking time as far as preparation for their future is concerned," the Daily says.

"Coaches are shifted as soon as a team has a losing streak," the Daily asserts, "and everything is done to keep the team winning and maintaining gate receipts. This is good business practice."

The most important cog in the money-making machine is the football player and his only return is "that tired, aching feeling and a lot of cash about fighting for the dear old alma mater." Why not pay the deserving workers?

Never before has the south seen such a thing as the crowd which tore down fences, scaled buildings and walls and defied police to see the Vanderbilt-Tennessee game.

It needed no ballyhoo. And the moral seems to be that natural rivalries are the best after all. This rivalry was for the state title. And it attracted thousands. When the new conference is formed, as it will be this winter, the makers should take a look at their geographies and see who lives next door to who.

# STRETCH ATLANTA CONSTITUTION

PAGE SIX THE CONSTITUTION, ATLANTA, GA., MONDAY, NOVEMBER 14, 1932.

## Dixie Roberts Prances Five Yards Saturday

One of the south's greatest running backs, Dixie Roberts, Vanderbilt, goes crashing off Tennessee's left tackle for five yards in Saturday's game at Nashville which wound up in a scoreless tie. Although running with his usual power and proving a threat at all times, Roberts' ground gaining proclivities were considerably hampered by the great defensive work of Breezy Wynn, who backed up the line for Tennessee. Wynn came in to make the tackle on this play.

## COLGATE GOAL YET UNCROSSED Alex's Surprise Move Befuddles Alabama

NEW YORK, Nov. 13.—(AP)—Only three eastern college football teams—Colgate, Brown and Wayneburg of Pennsylvania—could boast perfect records today.

Colgate and Wayneburg each had the eight successive games while Brown, which meets Colgate Thanksgiving Day, has won seven games. Pittsburgh, Susquehanna and Temple all have escaped defeat but have been tied.

Colgate leads in scoring with 243 points, with Army second with 234. Only Colgate has an uncrossed goal line.

Figures eastern teams follow:

TEAM	W	L	T	Points	Against
Colgate	8	0	0	243	0
Wayneburg	8	0	0	234	0
Brown	7	0	0	81	21
Pittsburgh	6	0	0	101	27

## AUBURN RIDES CREST OF WAVE DIXIELAND

Plainsmen Must Get by Georgia Saturday at Columbus.

THE YEARS PASS BY. Where the Tide, Vols and Vandy Once ruled with an iron hand, The underdog has come along To lead the conference band.

By Jack Troy.

The records show an overwhelming number of Georgia victories over Auburn in football—there have been only two Tiger triumphs against the Bulldogs in 13 years—but hopes are high on the Plains that Saturday's annual classic at Columbus, where the two teams have met continuously since 1919 to settle their gridiron disputes, will break the spell and give the players in the Southern conference king row.

Only once since the conference was organized in 1921 has an Auburn team gone back to the Loveliet Villages with victory riding by its side. That was in 1922. Auburn won, 7 to 3. Georgia has enjoyed a continuous reign since then.

But this year things are different. Auburn, long down in the valley of defeat, is high on the mountain, surveying the field. The first southern title since long ago will be the Plainsmen's reward if they can make it by Georgia Saturday. Fire victories the Auburn team, led by Captain Jimmy Hitchcock, has won in the conference. First victories and no defeats. The title road is clear, except for Georgia. For the South Carolina game, which follows, is not seriously threatening the break march.

**HAPPY DAYS.**  
These are happy days at the little village in Alabama, where Chet Wynn, Roger E. Crockett and Alister are held in no less esteem than the next president of these United States.

And the turbulent days, strangely at variance with what the southern football fan is used to seeing at this stage of the season. Georgia Tech, Tulane and Alabama; Georgia, Vanderbilt and Tennessee, recognized leaders of many years, although the first two have been rather out of it since 1928. Auburn, the man And Auburn, after all the years, is once more the big gun on the conference.

Georgia Tech makes its first invasion of Florida to play the "Gators" at Gainesville, while Oglethorpe and Georgia Tech, Tulane and Alabama; Georgia, Vanderbilt and Tennessee, recognized leaders of many years, although the first two have been rather out of it since 1928. Auburn, the man And Auburn, after all the years, is once more the big gun on the conference.

Other games scheduled will bring together Tulane and Sewanee, Mississippi and Southwestern, South Carolina and the Citadel, Duke and Carolina, Howard and Birmingham-Southern.

The scoreless tie between Vanderbilt and Tennessee at Nashville will be the largest crowd of the season—more than 24,000 fans—looking on, eliminated the Vols from the race and gave Auburn a clear path. Beatty Feathers, star Vol back, crossed the goal once after a 60-yard run but the play was nullified because the man downed out of bounds. An overflow crowd broke down a gate and surged on the field and the game had to be stopped. But it was not after allings by Referee Everett Strupper, and the title forever dropped by the way-side.

Tech's second team brought word to Alabama with a 75-yard touchdown run by Chick Galloway early in the game and a 30-yard run and the rest of the way to a 10-0. This was the outstanding surprise victory of the season. A Tech second team heaving down the Red Regiment of Alabama to its size and going on to a glorious victory.

**STATE SURPRISES.**  
North Carolina State, which has been floundering around in no particular direction except a cold spot near the conference cellar, surprised Duke in a 6-0 victory.

Auburn, of course, was going merrily along with a 21-0 victory over Florida. The game was won virtually by the Plainsmen, as they looked ahead to the decisive game with Georgia.

Don Zimmerman, who has been lighted dynamite to all conference teams (except Auburn), carried Tulane over against Kentucky in a 6-0-3 game.

Through in the conference to defeat Sewanee, 27 to 6. Virginia Poly was victorious over Virginia, 13 to 0. Georgia Tech, 19 to 0, won against Clemson to win, 32 to 18.

Centenary proved too strong for Louisiana State and won, 6 to 0. L. S. U. has a spotless record within the conference.

Lake Russell's greatest Mercer team won the 1932 state title, team since 1928 by wallowing Chattanooga Friday, 25 to 0, in a game in which Pinsky Walden was a star.

Georgia Tech, 19 to 0, won against Clemson to win, 32 to 18. Centenary proved too strong for Louisiana State and won, 6 to 0. L. S. U. has a spotless record within the conference.

## McGUGIN PRAISES DEFENSE WORK OF VANDY, VOLS

Commodores Outgain  
Rivals and Roberts Stars  
in Punt Returns.

By Dan McGugin.  
Head Football Coach, Vanderbilt University.

NASHVILLE, Tenn., Nov. 13.—Two great football teams representing Tennessee and Vanderbilt fought to a 0-0 tie in the south Saturday. It was an unusually hard-played contest between two of perhaps the very best teams in the country.

The total yardage from scrimmage, including passes, Vanderbilt gained 280 yards to 118 for Tennessee and made a total of 11 first downs to 6 for the Volunteers. The result was a game either might have lost or won, but probably without enough difference to entitle one or the other to the victory.

Both teams were remarkably good on defense, particularly against passes. Vanderbilt lost Gracy, with the first injury of his career, early in the game, and Roberts also was injured early, but was able to return.

Vanderbilt also excelled in punt returns by Roberts, returning 132 yards against 65 for Tennessee. The result, of course, was a disappointment to both teams, each of which hoped for victory.

Georgia Tech won a great victory from Alabama. The records indicate that Georgia Tech made only one first down, but it was for 75 yards and a touchdown, whereas Alabama made many first downs and repeatedly threatened, with Tech having the stamina to prevent a score.

Georgia Tech's team this year has suffered misfortune and a number of defeats, but has kept on week after week as though it had the championship record of the world behind it.

In the Tulane-Kentucky game, Don Zimmerman's returned kick-off, approximately 60 yards, was perhaps the chief cause of the victory, Tulane winning by a score of 6-3.

Duke lost to a good North Carolina State team, but has had a hard schedule and has played a number of brilliant games. Duke has done this with a very light backfield and the chances are that it is more or less worn down by the ordeal of previous contests.

Furman's strong team won from South Carolina, Sewanee lost to Mississippi, Virginia Polytech won from Virginia, and Virginia Military lost, 7-0, to a non-conference team, the University of Richmond.

Auburn kept up her record by defeating Florida 21-6. It looks as if Auburn is destined to go through undefeated this year. The team will have a pretty severe test against the Georgia outfit, but it is unlikely that sophomores can defeat the fine machine of Chet Wynne at Auburn.

North Carolina kept up its recent good record by winning, 12-0, from Davidson, and a battle royal will take place between Duke and North Carolina for leadership in the state.

Louisiana State lost, 6-0, to an excellent team at Centenary, Loyola, of New Orleans, kept up its good work in the other conference by winning from Oglethorpe, and Mercer, with an excellent team, won from Chattanooga.

The game between Tennessee and Vanderbilt left its mark on both teams and it is doubtful whether Tennessee can be at her best against Kentucky on Thanksgiving Day.

## Joe Knight, Bob Godwin, Cagle Stars Raise State Fight Hopes Cairo Southpaw and Moultrie Righthander Make Rapid Progress on Nation's Fistic Front.

By Jack Troy.  
Joe Knight, the Cairo (Ga.) southpaw, whose progress has been noted from time to time in these columns, is swinging along the fistic highways and byways and heading up where the stars twinkle brightest in the boxing firmament.

Joe, a clever light-heavyweight recently gone heavyweight on the boys, is a terrific left-handed puncher. He has smacked down both recognized light-heavyweight champions—Joe Nichols and Maxie Rosenbloom. He has blown out the lesser lights along the great highway.

Last week he made his first start as a heavy, beating Pietri Corri in ten rounds in Florida.

And his manager, Vester (Vitaphone) Duckworth, proclaims great things for this fine Georgia product in the future. That is a superlative gesture, however, because Joe himself has served notice to that effect by his rapid progress in the past.

The bright lights hold no attraction for Joe Knight, and that is one of the reasons why he is getting along so well. Conscientious to a fault, he is always in fighting trim and prepared to take on any and all comers.

He is a hard-working Georgia boy, and well deserves the highest ranking. It would be well for the fight fans to keep the name of Joe Knight in mind, for he is one of the brightest prospects to come along from this state since the halcyon days of W. L. (Young) Stripling.

There is another promising Georgia boxer who is presenting a serious challenge to the possessors of light-heavyweight laurels. He is Bob Godwin, who was born in Moultrie and later moved to Daytona Beach, Fla. He spends considerable time in Adel, where he has relatives, and in New Jersey, where he has a training camp.

Godwin, too, has stepped blithely along a fistic trail that always leads higher and higher toward a spot in the annals of the world behind it.

Godwin and Knight were once stable mates. When they parted and went on their respective ways they waged a successful campaign in and around the country. They got pretty good and someone hit upon the happy idea of bringing them together in the ring.

Well, sir, Godwin had the edge at first, but in the result of the bout by decision and then all of a sudden they met again, and bingo! Knight knocked out Godwin.

That created quite a stir and naturally called for a return bout. And, strangely enough, Godwin recovered his old mastery over Knight and won the next fight by decision.

In all their fights, Godwin holds an edge. They haven't met recently. But a future bout is inevitable.

And when they do meet again, with the national experience they have gained in recent bouts against the best in the division drawn in, what a fight it should be.

Godwin has never met Nichols, but he has matched anything Rosenbloom could offer. The late Jimmy DeForest trained Godwin last summer.

Both these Georgians. They will be heard from.

**School Is Planned  
For Young Players**

MUSCATINE, Iowa, Nov. 13.—(AP)—A school for young ball players will be conducted this winter at Hot Springs, Ark. Ray Donn, manager of the House of David inn, announced here today.

Donn said that he had obtained Rogers Hornsby, Grover Alexander and George Sisler to tutor youthful diamond aspirants who are expected to enroll in the school.

**CAREY VICTOR.**  
OAKLAND, Cal., Nov. 13.—(AP)—Bob Carey, of Anderson, Ind., won the national college championship at Oakland Speedway today, although he came in second to Wild Bill Cummings, of Indianapolis, in the 150-mile classic of the automobile racing season here. Carey had enough points that second position gave him the crown.

**MEETING TONIGHT.**  
Only a few more boys' basketball teams can secure berths in the leagues sponsored by the Y-Club A. A. for the coming season and those desiring to enter should place their application in a meeting set for 7:30 p. m. Monday at the Y. M. C. A. Three leagues will be operated, the Dixie, Sewanee and Atlanta.

**Three Poison Victims  
Are Treated at Grady**  
Three women were admitted to Grady hospital Sunday suffering from effects of poison said by hospital attaches and police to have been self-administered.

Mrs. Mercedes Kimbrough, 44, who gave her address as 778 N. 10th St., was brought to the hospital Sunday night. She was found by a neighbor who said the woman was unknown to them. The men said she had swallowed two poison tablets in a downtown drugstore. The nature of the poison is slow to act, it was said, and her condition was not determined.

## Friedman's Placement Field Goal Gives Dodgers Victory Against Cards.

NEW YORK, Nov. 13.—(AP)—The Green Bay Packers, New York Giants and Brooklyn Dodgers hung up victories in the National Professional Football League today, while the Chicago Bears and Portsmouth Spartans battled to a tie.

Green Bay, league pace-setters from last year, won their eighth victory in nine games. The only blot on the champions' record is a tie. The Packers finished a sensational forward passing attack to wallow Boston, Arnold Herber throwing scoring passes to Roger Grove, Verne Lewellen and Johnny Blood. The Braves running attack netted plenty of yardage in midfield but Boston never really threatened the Packers' goal.

The Giants ran wild at Stapleton's expense, winning, 27 to 7. As Chris Cagle scored two touchdowns, one on a 50-yard open punt, and the other on a 25-yard run, the fourth Giant, Jimmie Mendenhall, scored on a 25-yard run.

The Bears and Portsmouth wound up in a 13-13 deadlock. Molewirth scored on a 12-yard run, and the Bears' backfield, led by the fullback, Fred Gaudin, scored on a 12-yard run.

The Cardinals and the Packers played a tight game, with the Cardinals leading 13-0 at halftime. The Cardinals' backfield, led by the fullback, Fred Gaudin, scored on a 12-yard run.

**Stars in Dixie  
Have Tough Day;  
Many Are Hurt**  
The south's football stars had a tough day of it today, but all expected to be in shape for their next games with the possible exception of Gracy, Vanderbilt's All-Southern center.

Gracy came out of the tough tie game with Tennessee on a badly wounded knee and physicians said it would take him several weeks to determine whether he would face Alabama's Red line on Thanksgiving. It was the second time that time out had been called for Gracy.

Breezy Wynn, the Duke of Dublin, Ga., who backed up the line for Tennessee and stopped many of Vandy's drives, was hurt by a shoulder and doctors said it probably was dislocated. Feathers was bruised up, but was expected to be in fine shape before the Turkey Day game with Kentucky.

Jimmy Hitchcock, Auburn's ball carrier, was knocked out in the Florida game, but returned to the field today and was ready for Georgia next Saturday. Tally, fullback, had an injured knee, however, and there was some question whether he would play.

Tessier, star Tulane guard, left the Kentucky game with a broken nose, but otherwise O. K. The Tulane victory over Alabama left them with seven men needing the trainer's attention. McArthur, with a swollen elbow, and Fife, with a bruised shoulder, were the most injured.

**COMMON MAN CRUSADE  
IS PROMISED BY BONE**

By JAMES S. SHERKEY.  
SEATTLE, Nov. 13.—(UP)—Homer Theodore Bone, the slight, slender Seattle rebel who retired to United States after 23 years in Congress, will crusade "for the common man" as senator, he said today.

The last month of crusading "for the common people and against the power trust" when, running as a democrat, he overcame the odds of a powerful party machine and won the seat.

Bone led the entire democratic ticket, including Governor Roosevelt, at the polls.

There is total lack of sham and hypocrisy about Bone. His friends say he is "a natural rebel, who hates injustice and oppression."

He drove hard, tenaciously during the bitter campaign. He attacked what he termed entrenched special privileges. He secured passage of a legislative measure to force the return to the treasury about \$1,000 that he charged the senator collected in travel pay during a holiday season a year ago.

**MAJOR DOOLITTLE  
PLANS NEW ASSAULT  
ON SPEED RECORDS**

CHICAGO, Nov. 13.—(AP)—Following the failure of Colonel Roscoe Turner to complete a projected round-trip coast-to-coast record flying solo, Major James Doolittle today announced plans for an assault upon existing air transport speed records over 9,000 miles.

Major Doolittle said he hopes to dash from Chicago to both coasts and the Gulf of Mexico and back within six days, at an average flying speed of 230 miles an hour to show that air travel has not yet reached its maximum safe speed.

The record-breaking attempts, he said, will be made in a plane of his own design now nearing completion at St. Louis. It will carry four passengers and a pilot.

The flyer, who sped at 296 miles an hour to set a new land plane record at the Cleveland national air races last August, will take off from the municipal airport here November 23 for the Atlantic coast and return, stopping at Detroit, Buffalo, Toronto, Boston, New York, Washington, Pittsburgh and Cleveland.

## SPARKLIGHT By Kenneth Rice

It remained for Yale and Princeton in their 57th meeting to prove the true value of football as a sporting proposition over any other competition on the long, long list of games.

Here were two teams that had known, together, four defeats, four ties and only one major victory over a Dartmouth team that had won no major game at all.

There was not even the faintest glimmer of any championship touch, any high ranking appeal.

Yet in these somewhat rasping times they drew out between 40,000 and 50,000 spectators, thrilled a crowd with two stirring final burnings, and opened up a bundle of burning oratory as to which had the better.

Here was full proof of changing times and manner in football ranking, without any change in the game itself. For over 30 years these two teams, with Harvard and at times with Pennsylvania, had dominated the college football scene.

And on Saturday one was battling for its first major victory in 30 years and the other for its second.

The Blue and the Orange and Black still had two good football coaches. You had here, not so much the retrogression of Yale and Princeton, as you had the tremendous advance of football from coast to coast.

Yale and Princeton were well over a hundred strong teams in place of only three or four.

This game was a vivid blend of past and present. I got more of the feeling of the old days walking to the field with Frank Butterworth, a Yale star who remains as one of the best of all the kickers. Almost nothing was said of the coming game as he talked of the old days.

Yale and Princeton in this game came to the vital spot of their year. Yale had been tied by Bates, Princeton by the Army and had a lone victory over a much-beaten Dartmouth team.

Princeton had lost to Columbia, Yale to the Navy, and had fallen before Michigan. So here was the big shot ahead—neither could quite make it.

In the burning debates of the game, the Yale team thought Yale should have won, Princeton men thought Princeton had the better team.

Princeton had four chances to score and Yale three. The fact that Yale wrecked three of Princeton's chances, due partly to Princeton's lack of variety and deception in the game, was a surprise.

Princeton got her first two chances on mighty kicks by Purnell and fast plays by Fairman that crowded Yale within her own five.

Yale's defense, forcing her to kick against a brick November wind.

In each of these chances Jack James, the most durable football player I have seen all year, was hurled repeatedly, played after play, against the Blue line.

On a minute warning three-quarter it looked as if nothing could keep the Tiger from clawing his way across the narrow strip of green turf between the two teams.

Princeton's defense, however, was a wall of steel. The Yale team was off-balance, and the Princeton defense was a wall of steel.

Princeton put on such varied attack but disclosed an unflinching spirit and a passing assault upon Yale's defense that missed.

Princeton put on such varied attack but disclosed an unflinching spirit and a passing assault upon Yale's defense that missed.

Princeton put on such varied attack but disclosed an unflinching spirit and a passing assault upon Yale's defense that missed.

## Reviewing the Shows 'Two-for-One Tickets' Are Offered Tonight at Erlanger Box Office

Manager Lewis Haase, of the Erlanger theater, announced Sunday that, in order to further popularize the Permanent Players, the splendid stock company which is now giving Atlanta new productions each week of the latest and best Broadway successes, 100 "two-for-one" tickets would be given at the box office on Monday night.

These tickets will be given to the first hundred gentlemen applying for seats after 7:30 tonight. They will be given to the first hundred gentlemen applying for seats after 7:30 tonight.

"Berkeley Square" is probably the outstanding stage success of the past two seasons. It played for more than a year in New York with Leslie Howe.

and in the principal role. It is a story of time travel, the hero, a young American traveling backward in time from 1928 to 1784. In 1784 he finds himself among his own ancestors in their old London home and he becomes the center of a lovely romance that is tinged also with sadness, as the desire to return to his own age becomes overwhelming.

Producer Rowland G. Edwards and the Permanent Players have provided a particularly lavish production for this play. The costumes were ordered specially from a famous stage costumier in New York and unusual effort and expense has been expended on the stage settings, etc. It is undoubtedly the most important production yet undertaken by the Players and will very probably be the highlight of the fall season.

Rice sport reel and Smilin' Al Evans, starring in the picture, "Dear Old Lithuania," to be shown exclusively at the Paramount, complete the bill.

—FRANK M. DRAKE.

**Lowell Sherman Star  
In Picture at Rialto**  
Lowell Sherman, the man with the devil-may-care air, who is such a riot with the ladies, is with us at the Rialto this week in "Falsely Accused" and he is to be seen at his critical best.

Sherman, the man who was accused by many critics of stealing the show in "What Price Hollywood," is featured in this picture at the Rialto as the scheming young surgeon who forsakes his professional duties for a woman and degenerates into a racketeering publicity-seeking medical man. The picture is to be commended in that it attempts to expose the frauds perpetrated by quack medical men and contrasts their work with that of the quiet, self-effacing physicians and surgeons who are a real blessing to mankind.

Needless to say, Sherman, with his nonchalant manner, makes many conquests. Peggy Shannon and Lila Lee furnish attractive targets for his love-making. There are to be seen a newsreel, a clever animated cartoon and a laughable comedy. You'll like the whole bill.

"Once in a Lifetime"  
Accorded High Praise  
"Once in a Lifetime," at the Fox, must be mounting piles of evidence that the cinema definitely is making progress along the road from goofy infanity and awkward adolescence to intelligent and unimpaired maturity. The picture is a masterpiece of the kind of those you can't afford to miss.

In this production, Carl Laemmle (of Universal) has laid on the lash of biting satire and the paddle of roaring burlesque in a wholehearted attack on the modern picture with its manifold foibles of the Hollywood scene. When this brilliant play by Moss Hart and George Kaufman (two Chicago writers who know Broadway by the by) was making Broadway scream with mirth the wise boys said: "The movies won't touch it. They can't touch it. They're out of their minds. They're out of their minds. They're out of their minds."

The movies won't touch it. They can't touch it. They're out of their minds. They're out of their minds. They're out of their minds.

## FARMERS OF IOWA TO SAVE OWN LAND

Bankers, Merchants, Insurance Firms, Farm Agents, Farmers Pool Efforts.

BY A. D. STEFFERUD.

DES MOINES, Iowa, Nov. 13.—

(AP)—Many who have worried

months about farm mortgage forec-

losures conclude that it's best for farm-

ers to help themselves with the aid

of their neighbors.

There have been numerous confer-

ences here, and much study has been

put into the problem of keeping farm-

ers on their properties if they cannot

pay past due debts. Now financial

and agricultural leaders say there is

a practical plan.

It provides that in each Iowa coun-

ty there will be established a council

of bankers, insurance men, farm-

ers, country agents and others, who

will hear the problems of every dis-

tressed farmer and seek a solution for

each case.

"There is no question," said Charles

E. Hearst, president of the Iowa Farm

Bureau Federation, "that if the pub-

lic-spirited, fair-minded men are se-

lected in each county to assist in

making plans to prevent the present

landowner to continue on his farm un-

der conditions improve, mortgage

foreclosures will cease to a large ex-

tent in Iowa.

"While it may be true that some

farmers are so heavily indebted that

it would be better for them to turn

over their holdings and make a new

start, there are thousands of others

who, given the opportunity, would

liberalization of the policies of loan-

ing companies, may have a reasonable

assurance of going forward and re-

maining on their farms until price

trends improve."

The county agricultural councils are

expected by proponents of the plan

to start functioning in two or three

weeks. Before then will appear farm-

ers who need help. The status of

each will be investigated. Those whom

the council members feel are reliable

and worthy of a "second chance" are

promised help so they will not have

to give up their farms.

**Mississippi Woman,**

**Son Killed in Crash**

CLARKSDALE, Miss., Nov. 13.—

(AP)—Mrs. Arthur Sperry, 55, and her

son, Dixie, 14, were instantly killed

today at Clarksdale, in this county,

when the automobile in which they

were riding was struck by a Yazoo

& Mississippi Valley railroad train

at a crossing.

Arthur Sperry, her husband, was

critically injured. He was brought

to Clarksdale for treatment. Physi-

cians said he might not survive.

The Sperry family live at Dublin, near

Clarksdale, where Mr. Sperry is en-

gaged in planting.

**Splitting Headaches**

Until she learned why she was always

splitting her head, she was always

splitting her head. Now she gets

along with everyone. This safe, de-

pendable, all-vegetable laxative brought quick relief

and quietness to a woman who had been

tormented by splitting headaches for

months. She says, "I feel like a new

person. I feel like a new person."

## Only Few of Meteors

Seen by Astronomers

SAN JOSE, Cal., Nov. 13.—(AP)

Only one or two of the vanguard of

Leonid meteors, due in the eastern

sky now on their three-century

visit, were detected by Lick observa-

tory astronomers early today, accord-

ing to Dr. Robert G. Aitken, direc-

tor.

"It's a bit early to expect the

main shower," Dr. Aitken said.

"We may encounter it tomorrow

morning, Tuesday morning, or pos-

sibly the following morning."

Amateur observers interested

should look high in the eastern sky

toward the sickle-shaped constella-

tion Leo. Dr. Aitken suggests, be-

tween the hours of 3 a. m. and 5

a. m. in the morning. The full

moon, he said, makes it unlikely

that other than the largest of the

meteor swarm will be visible.

**Sen. Nye's Condition**

Is Reported Better

ST. PAUL, Nov. 13.—(AP)—The

condition of Senator Nye, of North

Dakota, injured in an automobile ac-

cident near Hudson, Wis., yesterday

improved tonight, hospital attaches

said.

Senator Nye received two fractured

ribs and cuts and bruises when his

automobile skidded and overturned

near Hudson, Wis., yesterday. The

senator, who was en route from his

home at Cooperstown, N. D., to Wash-

ington, will remain in the hospital for

several days before resuming his jour-

ney.

Mrs. Nye arrived today from Chi-

cago.

**Barley Bursts Wall,**

18 Persons Killed

WARSAW, Poland, Nov. 13.—(AP)

In the most tragic building catastro-

rophe on record in Warsaw, 18 per-

sons were killed and about a score

were injured today morning when a

wall of the Haderbusch and Schiele

brewery collapsed and a huge quantity

of barley buried a small adjoining

house.

All 31 tenants of the house were

asleep. When victims were extri-

cated it was found only two were

alive. The other 29 were killed or

injured. The barley was piled up

to a depth of 10 feet.

A dog and squirrel were found

in the debris, still alive, although

surrounded by the bodies of their

owners.

Authorities believed an excessive

amount of barley had been stored in

the brewery and some chemical pro-

cesses had caused it to burst the wall.

Four women and three children were

among the dead.

**SCHEDULE CHANGES**

OF HOOVER SPECIAL

ARE MADE PUBLIC

LOS ANGELES, Nov. 13.—(AP)—

The Southern Pacific railroad office

here today issued a revised approxi-

mate schedule for President Hoover's

special train from Arizona to Wash-

ington, explaining, however, that the

arrival time at stations between St.

Louis and the capital had not been

received here.

The train will travel to Tucuman,

N. M., on the Southern Pacific line,

on the Rock Island line from Tucum-

ari to Kansas City, Mo., and on the

Alton line to St. Louis.

After the president's visit to the

Hoover damsite last night the train

will leave St. Louis at 4:40 a. m. (C. S. T.)

today, at 5:30 p. m. (M. S. T.) for a

10-minute halt.

The train was scheduled to reach

Louisburg, N. M., at 10:20 p. m. (M.

S. T.) and depart at 10:25 p. m.

a. m. (M. S. T.) Monday and de-

parting at 1:50 a. m.

Tucumari, according to the sched-

ule, would be reached in one time

zone and left in another, the train

arriving at 9:30 a. m. mountain

standard time, and leaving 10 minutes

later, at 11:00 a. m., central standard

time.

The special is due to reach Kansas

City at 1:30 a. m. (C. S. T.) Tues-

day and depart at 1:43 a. m., reach-

ing St. Louis at 8:42 a. m. (C. S. T.)

Tuesday, leaving at 9 a. m. and ar-

riving at Washington at 7 a. m. (E.

S. T.) Wednesday.

**WIFE OF STALIN**

**BELIEVED VICTIM**

**OF APPENDICITIS**

MOSCOW, Nov. 13.—(AP)—With

an official explanation still lacking,

Moscow today had accepted generally

the story that the 36-year-old wife

of Joseph Stalin, died last Wednesday

from acute appendicitis.

It was said she suffered three at-

tacks, the first occurring this sum-

mer. Physicians at that time, it was

reported, advised her to undergo an

operation but she refused. Rumors

were that she suffered another at-

tack a few months later and still

declined to be operated upon.

The fatal attack was said to have

come during Tuesday night. It was

not known whether an operation was

performed at the last moment.

All authoritative sources are silent

on the cause of her death and also

refuse an explanation of why the

reasons are kept secret.

# TABLE OF BUSINESS

A General Weekly Review of Commerce and Industry Affecting the Greater Atlanta Trade Territory

## GENERAL BUSINESS BECOMES FIRMER

Price Level Increases, Indices Check Drop as Election Fear Fades.

BY FRANK H. MCCONNELL.  
NEW YORK, Nov. 13.—(AP)—Business appeared last week to be taking stock, in an effort to reappraise future prospects, and boundlessly relieved that the quadrennial election was over.

Seasonal influences continued to play a dominant role in shaping the character of reports from industry, but there was a gratifying advance in the average price level of commodities. Immediately following the election, there was a sharp reaction, which, however, was more than recovered late in the week. The advance marked the first break in the decline which had been under way for seven weeks, the upturn of the food-stuff group marking the first bulge in that particular classification in eight weeks.

Carloadings turned down in the week ended November 5 somewhat more sharply than in the corresponding 1931 week. Loadings totaled 388,383 cars against 717,048 in the corresponding 1931 week, a decline of 18 per cent.

Electric power production edged off slightly, totaling 1,525,410,000 kilowatt hours against 1,533,025,000 the week before. But compared with the corresponding week of 1931, 1930 and 1929, the decrease was considerably smaller than usual. Compared with 1931, the latest electric power production report showed a decline of 6.3 per cent. In the previous week, production was 7.2 per cent below the corresponding 1931 level.

The steel trade registered little change. Ingot production held around 20 per cent of capacity. The United States Steel Corporation's unfilled tonnage report showed that the October gain in operations had not been at the expense of the corporation's backlog of orders. Unfilled tonnage, in fact, showed a nominal gain of 11,950 tons, standing at 1,907,040 tons on October 31.

Automobile production increased slightly, estimated at 10,207 units for the week ended November 5 against the low level of 9,546 the week before. Some of the producers in the lower price field, it was reported, were purchasing materials with a view to manufacturing more cars in the year end in moderately increased volume.

The retail trade, while showing no gains on the average, appeared to hold previous levels. Wholesale buying was somewhat lighter, but shoe and wearing apparel manufacturers reported a more favorable volume. Textile sales were generally better, although the silk trade continued small.

## New Texas Oil Law Is Signed by Sterling

AUSTIN, Texas, Nov. 13.—(AP)—Texas enacted a new oil law today across its vast oil pools, declaring officials may consider "market demand" in fixing the price of petroleum allowed the 8,000 producers of oil wells in the rich east Texas field.

Writing a new chapter in the fantastic story of oil in Texas, Governor R. S. Sterling signed into law last night an act giving additional discretionary power to the state railroad commission, charged with the conservation of the valuable deposits. Sterling called the legislature into special session to enact the measure after a federal court had nullified previous acts under which the commission was holding daily production of each well at 40 barrels. Producers decried the "reasonable market demand" law, similar to one in effect in Oklahoma whose provisions have been sustained by the United States supreme court in order to save the industry from overproduction.

## FIVE STATES LIST OVER ONE-FOURTH OF HIGH SCHOOLS

WASHINGTON, Nov. 13.—More than one-fourth of all the 23,930 public high schools in America are located in five states: Texas, Ohio, Pennsylvania, Minnesota and Illinois. The federal office of education has announced in a report on public high schools for 1929-30. Texas—high schools reporting totaled 3,901; 1,322; Pennsylvania, 1,185; Missouri, 1,063; and Illinois, 1,063.

Fourteen other states recorded from 500 to 1,000 public high schools as follows:

Iowa	901
New York	955
Oklahoma	911
North Carolina	901
Indiana	889
Michigan	784
Kansas	735
Mississippi	735
Kentucky	711
Tennessee	699
Nebraska	652
Georgia	585
Minnesota	576
North Dakota	519

Public high schools graduated 591,710 young men and women in the year 1929-30. Forty-six per cent of the graduates of city high schools were boys and 43.5 per cent of the graduates from rural schools were boys. Nearly half of the graduates continued their education the year after they left high school.

Among other significant facts set forth in the office of education's report of public high schools are: The percentage of boys attending college has shown a decline, and that of girls an increase from 1921 to 1929; the number of public high school teachers has increased 115,562 in a decade; 1,382 high school pupils of every 10,000 had an opportunity in 1930 to attend a public high school for more than 190 days, and 6,013 high school libraries were reported in 1930.

## Second-Ponce de Leon Church Names New Officers, Deacons

First Joint Meeting of Congregations Planned for Friday; Christie's Resignation Accepted.

With the final ratification of the merger of the Ponce de Leon and the Second Baptist churches, new officers and deacons were named for the United Second-Ponce de Leon Baptist church Sunday morning, and plans were laid for the first joint meeting of the two congregations Friday night.

The resignation of Dr. Luther Rice Christie as pastor of the Ponce de Leon church was officially accepted Sunday and the office called to Dr. Richard Knight as pastor of the new church will be issued Friday night.

Appreciation of his services and regret at his resignation were expressed by Dr. Christie in resolutions unanimously adopted by the congregation. He will preside at the joint meeting of the two churches which will take the form of a social get-together with only a short business session.

**Pastors Explain Merger.**  
Dr. Dr. Knight and Dr. Christie devoted Sunday morning services to comments and explanations of the merger. The first sermon to the new congregation will be preached next Sunday by Dr. Knight at the church at Wesley avenue and Peachtree road.

Deacons church officers, 31 deacons were named Sunday and will be officially appointed Friday. Sixteen were chosen from the Ponce de Leon church.

What in the opinion of Dr. Thorne Jacobs will constitute "one of the most interesting hours in the life of Oglethorpe University" is scheduled to take place in Lupton Hall on the Oglethorpe campus, today, when three valuable pieces of art dealing with the founding of the institution will be unveiled. The exhibition will begin at 10:30 o'clock.

One of the objects to be unveiled is a portrait of General James Edgar Watkins, which is said to be the only contemporary oil painting of Oglethorpe in the hall of the university.

The second unveiling will be that of a portrait of Sir John Percival, first president of the board of trustees for the founding of the state of Georgia. Sir John was the Earl of Egmont.

A bust of John Thomas Lupton, Chattanooga capitalist who is credited with having contributed more to the founding of the university than any other individual, will be unveiled in the hall named for him. Prominent citizens

of Oglethorpe University are scheduled to be present at the unveiling. The exhibition will be held in the hall named for him. Prominent citizens

## Market Recovers and Shows Largest Single Day Sales in Years.

NEW ORLEANS, Nov. 13.—(AP)—The cotton market has been fairly active the past week despite two holidays, election day and Armistice day. Prices after easing off to 5.89 for the December option just before the government estimate was issued on Wednesday morning, a drop of virtually \$2.50 a bale from the preceding Saturday, rallied quite sharply in the second half of the week. This was due to a good upturn in stocks, the fact that the disturbing influence of the election was out of the way and the belief that a crop of 11,947,000 bales, forecast by the government, would be readily absorbed by increased consumption as well as a good proportion of the large carry-over from last season.

As a result of the improvement the close of Saturday showed a gain for the week of fully 7½ cents a bale and this net gain would have been somewhat larger but for a decline in Liverpool on Saturday due to a sharp advance in sterling.

A sustaining influence during the week was a continued active demand for spots. The sale for the week at the reporting southern markets were probably the largest of the season on Monday last totaling 103,000 bales.

The plant at Manchester is one of the most modern of its kind in operation, costing approximately \$1,000,000. However, Mr. Smith pointed out that the cost of the plant was not the total cost of the job remained in Manchester in the form of salaries paid their local workers. Manchester is one

of the most progressive and independent towns in the state, it having no bonds. The Atlanta, Birmingham and Coast mill is located there.

The above photograph shows a general view of the plant and water treatment basin, which is situated on a high hill overlooking the town. The water supplied to the plant is a mixture of natural spring and deep well water requiring aeration, chemical treatment and filtration.

With the starting up of the new plant, the people and industries of Manchester are now enjoying the use of crystal clear water free from the contamination of organic matter and chemical properties, which caused taste in the water and corrosion in their water pipes and plumbing fixtures.

The plant was contracted for and built under the direction of H. L. Davis, chairman of the town commission. The engineering survey and plans for the plant were made by the engineering firm of Wiedeman & Sins

gleton, of Atlanta.

Burford, Hall & Smith state that its construction gives Manchester one of the best and most modern filter plants for the size of its population served in the state, and present-day costs of construction make it possible for the many small communities needing waterworks improvements to economically secure them, and at the same time give local building labor employment.

Burford, Hall & Smith specialize in the installation of equipment in the waterworks of pumping stations and filter plants in the southeast. Their offices and shop are located in their own building at 140 Edgewood avenue.

In addition to the plant at Manchester they have recently completed installations at Macon, Ga., and Nashville, Tenn. They are now actively engaged in installing pumping machinery in the waterworks of Memphis, Tenn., and Pensacola, Fla. For this special work they have a large staff of trained engineers.

Expanding automobile assemblies are largely seasonal, and with the exception of Plymouth and Chevrolet, the outpouring of new models is rigidly restricted to dealer and show requirements. But the aggregate of these minimum scheduled output in November considerably over the all-time low of 50,000 units in October and probably also insures an active December.

## Manchester's Water Works Plant in Operation

Manchester, which has done most of the major waterworks jobs in the southeast, has a capacity of 500,000 daily, or double the requirements of this progressive town of approximately 3,000 population. The plant is situated on a high hill overlooking the town.

## Most Battery Ills and Expense Are Easily Avoided, Says Brooks

Hardly anyone these days would think of driving a car without regularly checking the gas, oil, water and air in the tires, but an astonishing number of people put themselves to unnecessary expense and trouble by absolute neglect of the battery. Yet, by following just a few simple rules, this inconvenient and needless cost can easily be avoided.

Mr. H. H. Brooks, of the Brooks-Shatterly Company Service Stations, 1045 Jonesboro road, and 100 Spring street, N. W., well-known local distributors of U. S. L. batteries, outlines for readers of The Constitution the little things that prolong the life and improve the service of any automobile battery.

"Think of your battery as if it were human, and treat it accordingly," says Mr. Brooks. "At least once every month it should receive a filling of distilled water to the prescribed level. Acid should never be added except by a competent battery service man."

"Make sure your battery is securely fastened in place so that it suffers no excessive vibration. In warmer

weather and on long drives, see that the battery does not overheat. If the metal conductors on top of the battery feel warm to the hand, the lights should be turned on to consume the extra energy being generated.

"As the electrical energy stored in your battery is constantly being used, it is necessary that it be replenished. This is done by the generator in your car.

"The generator charging rate should fit the service of the driver. For instance, a salesman driving a hundred miles a day, with few stops, may need a charging rate of 10 to 15 amperes, while a physician driving about 10 miles a day, with many stops and stops, may need as high as 15 or 16 amperes.

"Regular battery inspection is the only safeguard against battery trouble," says Mr. Brooks. "The battery should be checked at least once a month, and a physician driving about 10 miles a day, with many stops and stops, may need as high as 15 or 16 amperes.

"Neglect is the cause of most battery troubles. Don't neglect yours," warns Mr. Brooks.

## RAILROAD BONDS SHOW FIRM TONE

Expected Recommendations of Coolidge Board Strengthen Issues.

BY VICTOR EUBANK.  
NEW YORK, Nov. 13.—(P)—With the national election out of the way, the bond market last week consolidated its recently feeble energies and started a record that had a rather impressive appearance.

Like stocks, senior securities were dull and hesitant on the day following the presidential sweepstakes, but they picked up smartly on Thursday and on Friday they recorded the best day's average gain in the past two months.

Analysis of the news was not unanimous in their interpretations. Trade reviews at the week-end were moderately cheerful, reporting that business was about holding its own. Industrial leaders were also mildly optimistic regarding the week-end improvement.

Commodity prices firmed generally, wheat, cotton and hogs doing considerably better. While freight car loadings and electric power output showed the expected seasonal declines, there was an increase in the unfilled orders of the United States Steel Corporation.

At the same time it was announced that Great Britain and France had requested Washington to postpone or modify war loan payments due America next month. Other debtor countries followed the lead of the British and French. Federal obligations were a trifle irregular in the face of further possible depletion of treasury funds.

In the domestic section the principal gainers were semi-speculative groups led by the rails. The carriers were somewhat encouraged by declaration of the regular quarterly Union Pacific dividend. In addition, there were reports that rail and financial leaders were quietly laying plans for a new transportation act which, if approved by the Coolidge committee and congress, is expected to remedy many of the ills from which the railroads are now suffering.

While substantial advances were recorded by most of the low-priced favorites, the higher grade investment list followed a narrow range, with fractional losses and gains about even.

Until the latter part of the week, the foreign department was highly irregular. Most of the Canadians slumped in sympathy with the dominion dollar, but recovered later. The Argentines and Australians declined and then rallied mildly. Japanese bonds were under pressure at one time.

## AVIATION CORPORATION BATTLE WAXES WARM

NEW YORK, Nov. 13.—(UP)—The battle for control of the \$18,000,000 Aviation Corporation resulted today in Lamont T. Cohn, president of the corporation, buying newspaper advertisements to attack E. L. Cord, airplane and airplane equipment manufacturer, soliciting proxies to dominate the company.

Cohn urged stockholders in their own interest and in the interest of the aviation industry and safety of future air travel to refrain from delivering their proxies to Cord.

The advertisement asked whether "the Aviation Corporation is to be dominated by E. L. Cord, an airplane manufacturer who seeks a controlled market for his products, or shall the present management, which has brought the company from its inception to its present position as America's leading air transport company, be retained?"

It continued with a comparison of Cord's records with those of Aviation Corporation and asked stockholder not to be "stampeded into sending Cord their proxies."

Cord today issued a statement in which he said "desperate efforts are being made to belaud the real issue involved."

"Stockholders in any corporation should have the right to elect new directors," he said. "Why should a small group of bankers who have little or no investment in the stock of Aviation Corporation be allowed to continue to control its affairs and assets and dictate its policies for their own benefit against the rights of owners of the other 98 per cent of stock?"

Aviation Corporation, which controls leading airways, is the leading air transport system in the country. It controls a nationwide system of planes and airlines providing passenger, freight and mail service. It gained the support of pilots representing airlines in the east today when David L. Benke, president of the Airline Pilots' Association, announced he was prepared to resign from the present management and pledged the support of his association.

The threat of a strike attempt if Cord interests in the company were contained today in a letter made public by Congressman F. H. La Guardia and written to Postmaster-General Brown.

La Guardia made the letter public after a secret conference with a group of airplane pilots whom he is representing. In it he said the Cord interests were apparently attempting to take control of another company "in order to repeat their attempt of tearing down the standard in the flying and motor personnel of air transportation."

The previous attempt, La Guardia said, was in the management of Century Air Lines, which Cord at one time owned.

"In the event that threatened lowering of the standard of the flying personnel and the breaking of the efficiency of the motor mechanic is carried out," La Guardia wrote, "it is my purpose to assist the personnel involved and the help labor organizations call upon the pilots and motor mechanics to relinquish their employment with any company controlled by the Cord interests operating passenger planes."

"My purpose in writing you is to give you timely notice so that satisfactory arrangements can be made for the carrying of mail, in order not to disturb the regular mail service."

**GILLIAM IS REBUKED**  
BY J. IRA HARRELSON

J. Ira Harrelson, president of the board of education, Sunday rebuked Alderman Ed A. Gilliam, chairman of the councilmanic school committee, for the latter's criticism of Harrelson's demand that the city assure \$217,000 needed to continue operation of city schools. Gilliam had been quoted as saying that "if the present board cannot operate the schools there are plenty of others who will."

Harrelson's reply Sunday was: "The only comment which I have to make of Alderman Gilliam's assault or 'rap' of me in today's paper is that my letter concerning the failure of council to deliver to the board the funds promised was directed to the attention of the mayor personally; delivered to him personally by hand, and I cannot understand why Mr. Gilliam or any other publicity-seeker should have responded thereto through the press or otherwise."

## Wall Street Briefs

NEW YORK, Nov. 13.—The weekly review of the Bank of America, covering business conditions in the far west, says that some 10,000,000 gallons of California wines, valued at \$15,000,000, are in bonded warehouses of that state awaiting legislation which would permit them to enter national and world markets.

Trading in a new coffee contract, to be known as "Contract H," starts tomorrow on the New York Coffee & Sugar Exchange. It is exclusively for coffee produced in the republic of Colombia. Trading will be in delivery months of December, 1932, and thereafter.

## COTTON GOODS SALES SHOW IMPROVEMENT

NEW YORK, Nov. 13.—Sales for the week were larger than they have been in several weeks, the main activity being in only a few construction. Last Saturday morning the feeling apparently developed that adverse news over the political situation had been overdone, and as a result a considerable volume of goods was bought, the principal demand being on print cloths and broadcloths.

While the market has been relatively quiet more inquiry is developing since the firming up in cotton. We understand a number of buyers will be in the market and we believe we are going to see a better general demand for cotton goods than we have had for the past several weeks. Comparison of sales for October in both chain and mail order houses is very encouraging, some of their figures being the best by comparison of any so far this year.

The demand for wide goods has been unsatisfactory for some months, the largely to the slowing down in the automobile industry, a clear picture of which is given in the following figures: It is estimated that the output in October was only 50,270 cars, as against 52,000 in the first 10 months of the year was 1,290,849 cars or 45 per cent less than the output of 2,278,272 cars the first 10 months of last year.

One of the large New York banks has pointed out some interesting figures in connection with business activity, the index being made up on 10 major industries. At the low point, which was in July, figures stood at approximately 52 per cent of normal, while at the end of September they advanced to 58.1 per cent. The combined gain for the two months of August and September is the largest shown for any similar period since the end of 1927. In going back over the bank chart we find that business activity in 1929 reached a peak of approximately 109 per cent, but still more interesting is the low point reached in 1921, which stood at approximately 26 per cent.

HUNTER & COMPANY.

## Highlights of Wall Street

BY CHARLES W. STORM,  
Editor, the News Service of  
Wall Street.

(Copyright, 1932, by the North American Newspaper Alliance, Inc.)  
NEW YORK, Nov. 13.—With the clearing of the political skies, the financial situation the last week has taken on a more favorable aspect, especially in view of the speech by President Hoover Saturday asking that the republican party co-operate to the fullest extent with the administration of President-elect Roosevelt in all measures designed to promote economic recovery.

The president's speech and suggestions were the subject of much optimistic comment in the financial district and found reflection in a strong undertone in the short session Saturday due to advance predictions as to what he would say.

The fact that the general securities markets have given a good account of themselves following the election is accepted as indicating that political differences have been sidetracked by the important interests in Wall Street which will continue to encourage a constructive economic program.

WATCHING INDICES.  
President Hoover's speech eliminates much of the thought whether there would be any interference with measures to be proposed in the near future in an effort to balance the national budget.

The balancing of the national budget is considered of premier importance by domestic as well as foreign banking interests. With co-operation of the part of both important political parties the Street has little doubt that money will be passed which will result in a balanced budget. This would have a far reaching effect in accelerating confidence in American securities.

The Street now will devote considerable attention to trade indices with a view to ascertaining whether the recent seasonal improvement in general business is being maintained. Late reports from the steel industry are that operations the last week were at the season's rate as during the preceding week, but car loadings showed a decrease of more than 20,000 cars for the week ending November 5. The decrease is seasonal, but somewhat larger than expected.

Trade reviews, however, report a continuation of the expansion in retail business. With the approach of the holiday season further expansion in retail trade is anticipated. Because of the seasonal contraction in railroad car loadings the reports of earnings for the month of November will not make as good a showing as those for October. The contraction in railroad traffic is expected to aggravate the financial condition of some of the common carriers.

FOREIGNERS CONFIDENT.  
It might not be exaggeration to state that the Europeans seem to have more confidence with regard to the future of American securities than Americans themselves. Europe has been steadily absorbing American stocks and bonds the last fortnight. These purchases have been substantial and have not been sold for profit on rises.

Since July, when the last big recovery started in the stock market, the Europeans have shown uncanny judgment regarding the proper time and level at which to purchase American stocks. For this reason their constructive attitude at this time is considered significant.

**PADUCAH, KY., ADOPTS  
CITY MANAGER PLAN**  
LOUISVILLE, Ky., Nov. 13.—(P) Paducah adopted the city manager plan of government, final tabulation of the city's vote showed today. The vote was 4,429 to 2,190.

The city manager plan will succeed the commission form of government, effective January 1, 1934. A much smaller town, Winchester, in central Kentucky, defeated the city manager plan in the election.

# To the Stockholders of The Aviation Corporation

**DO NOT BE STAMPEDED** into sending your proxies to E. L. Cord. Wait before you act—for a full impartial statement from the officers of your company.

Disregard the misstatements, half truths and innuendos in the advertisement recently inserted in the newspapers by E. L. Cord. You may not be aware that E. L. Cord is the same Mr. Cord the stock of whose Company gyrated wildly in the last few years. Auburn stock dropped from a high of 514 in 1929 to a low of 28½ in 1932.

We deplore and detest the necessity for this type of public controversy. Mr. Cord has counted on fighting a group of men and a company too dignified to fight back in kind. He is right.

However, it might be deemed cowardice on our part, unfaithfulness to the trust imposed in us by the stockholders, if we did not use every legitimate means to bring the true facts to your attention.

To quote former Governor "Al" Smith's phrase, "Let us look at the record." Our conclusion about Mr. Cord is based on our knowledge of his past, and our personal experience and contact with him.

- What are his real motives?
- Why is he spending thousands of dollars in advertising in the daily newspapers for your support?
- Why is he so desirous of using legal technical devices in an effort to stop the acquisition by The Aviation Corporation of the most logical company for its growth and development?
- Why is he afraid to let the stockholders vote in open meeting on this proposition?
- Why does he invite you to send him your proxies by mail?
- Why is he afraid even to let the Directors consider this proposition?
- Why did he demand that the officers purchase from his airplane factories certain planes and equipment unsuited to the specific needs of your company?
- Has he ever told you of his sad record in the air transport industry?

**Let us look at Mr. Cord's record! The record will be mailed to you shortly.**

1. Mr. Cord is a maker of airplanes and airplane equipment. He makes Lycoming airplane engines and Stinson planes. He seeks markets which he can control, for his products. Do you want him to be the sole judge as to whose product shall be bought?

2. Mr. Cord controls the Cord Corporation. It has never paid a dividend. Do you want your stock exposed to the possibility of manipulation?

3. Mr. Cord's figures, used in his advertisements, are interesting. In a letter to Hon. J. W. Byrns, Chairman of the Appropriations Committee of the House of Representatives, dated January 28, 1932, his attorney, Mr. L. L. Young, states that the Cord interests had 10,000 employees. In his advertisement, Mr. Cord refers to tens of thousands of employees.

4. Mr. Cord poses as an able operator of air transport lines. Mr. Cord operated the Century air lines from March 23, 1931 for about a year, one of the most unprofitable and disastrous ventures in air transportation history. After losing large sums of money in operating these lines, the venture finally culminated in a pilots' strike in protest to unfair treatment and ruthless cutting of wages. Finally Mr. Cord sold out his Century properties for the value of the remaining assets, at tremendous loss. This first attempt to make money from air transportation by Mr. Cord ended disastrously. Do you want to give him a second chance at your expense?

5. Mr. Cord's record on employee relations speaks out of the official hearings before the committee of the Post Office and Post Roads of the House of Representatives Friday, March 4, 1932. Mr. Edward F. McGrady, legislative representative of the American Federation of Labor, testifies in this record:—

"In the Auburn-Cord plant, located at Auburn, Ind., the men are working under a system of espionage; workers are encouraged to spy on their fellow-workers."  
"The attitude of Mr. Cord toward his workers has no place in America."

His method of dealing with human beings is dictatorial, unreasoning, and entirely antiquated."

"I hope that Congress will consider all these facts in connection with this man Cord and his company who have brow-beaten, over-worked and under-paid their workers in all their factories, and that they may never receive any Governmental assistance in the form of mail contracts until Cord and his associates humanize and Americanize the working conditions and pay under which their employees have to work."

"His policy in conducting his other business, and in attempting to break down the standard in aviation, might well be called industrial racketeering. It is our hope that Congress is not going to be swayed by a man who, in all his industrial relations with his workers, has been arrogant, unreasoning, and unnecessarily dictatorial."

6. Mr. Cord planted spies in your organization, and tried to undermine its morale. When Mr. Cord first acquired his interest in the company he endorsed the present management. When the officers, unwilling to comply with his demands, discharged his spies and stool-pigeons and refused to buy his equipment beyond the company's needs, he turned against the President after previously praising him greatly. Mr. Cord openly advocates the use of spies among his employees. He admits having hired more than twenty informers in The Aviation Corporation, a practice unjustifiable, and contrary to American institutions and the American system.

7. Mr. Cord, to gratify his own selfish purposes, is trying by a temporary injunction to stop us from submitting a plan for the acquisition of valuable assets and additional independent interests. With such additional independent stockholders he feels it would be much more difficult for him to control your Company. While this temporary injunction was on he has sought proxies to control the Board of Directors. He says that his interests are identical to yours.

His interest is to use your company for his purposes—are they to sell you his equipment and to attempt to use your Company for his purposes? Your company has purchased some of his equipment. But now that they are unwilling to go further, because it does not meet their needs, he is creating new issues of controversy for his own ends.

8. Mr. Cord has asked you to send your proxies to him by mail. Unlike Mr. Cord, we urge you to come in person to the meeting, but if you cannot, send your proxy to us—your interests will be safeguarded. Your present Board of Directors includes outstanding men of established integrity from all parts of the country, representing all stockholders, large and small. If Mr. Cord dominates your Board, he and his representatives will represent only himself.

## Mr. Cord's Record Speaks for Itself!

## The Aviation Corporation Record Speaks for Itself!

The Aviation Corporation is unquestionably the most important air transport system of America today. It controls a nation-wide system of air lines under efficient, economic management. It provides safe passenger, mail and express service to the people of the United States.

Its planes have flown more than twenty-five million miles. Its daily schedules cover more than thirty-two thousand miles. Its system was built up long before Mr. Cord came into the corporation.

Directors and officers of known integrity, drawn from the entire company, representative of 28,000 stockholders, head the company. Its splendid financial state reflects its able management—cash and equivalent are over nine and one-half million dollars.

With personnel of proven ability, unswerving loyalty—its record is at variance with Mr. Cord's record with his employees. In air transportation morale and loyalty are absolutely vital for safety in the public interest.

Keynotes of the company's policy are economy and efficiency. Recent decreases in cost per seat mile flown; increases of passenger and express revenue, since 1931 are indicative.

American Airways, controlled by The Aviation Corporation, is today the lowest cost large air transport system in the world.

**WE SAY AGAIN! DO NOT BE STAMPEDED!**

Send your Proxies to your Officers.

Very truly,

**THE AVIATION CORPORATION.**

New York, November 14, 1932.

This advertisement is inserted in the interests of accuracy and fair play in order that the stockholders of The Aviation Corporation may be informed on the real issue involved in the present controversy with E. L. Cord and that they may base their decision in this battle on the record—and the record only.
